Magic at the Library for the October School Holidays

The library was buzzing with enchantment during the October school holidays, as young and old alike embarked on an unforgettable journey filled with magic, creativity and endless fun.

Our young visitors were treated to a magical school holiday experience, armed with activity bags brimming with inspiration, children embarked on crafting their very own puppets and magic tricks.

Our wonderful library staff and volunteers were on hand to provide guidance, ensuring that every child's puppet and magic trick dreams came to life. From crafting puppetry marvels with socks, wooden spoons, felt,

and pop sticks to designing the most enchanting puppet plays, the library became a haven of creativity and wonder.

The magic of the library extended beyond its walls, as we welcomed the young talents of the children in Vacation Care. These budding puppeteers joined us to design their own puppets and enthralled one another with delightful puppet plays, forging connections that are a testament to the library's role as a community hub.

A highlight of our magical journey was the astounding performance by the one and only Amazing Magic Mike. Children and adults alike were left

spellbound by his captivating magic show. After the show, children were invited to stay and take part in an exciting workshop, where they learned the secrets behind performing magic tricks, making puppets come to life and even creating balloon animals behind their backs!

Opportunities were had to experience the new additions to the library, the 'Sphero' robots. Magical characters were created with children making clay or sparkly wands, wizard or witch hats and newspaper broomsticks.

The library would like to take this opportunity to thank the volunteers who helped organise the activity bags and the activities.

MAYOR'S MESSAGE

I must say that this is my favourite time of the year, and I was honoured to open the Yank Show. I would like to extend thanks to the Show Society for entrusting me with the privilege of opening this event in its 141st year.

The Yankalilla Show is not merely a celebration; it is a testament to the spirit of our community. It is an integral part of our Australian Culture, and we cannot underestimate the importance of events like these in strengthening the fabric of our community. The Show brings us together, not only in the excitement of the festivities but also to reflect on the rich tapestry of our shared heritage and the values that unite us.

It was great to celebrate the many talents, creativity and hard work of our fellow community members. From the captivating displays to the competitions, this event is a showcase of our collective achievements and is a reminder that we are a community of resilience, creativity, and boundless potential.

Some of my fondest memories growing up is going to my local show -with my Nanna & Aunty always entering cakes & scones into the baking competition – and particularly the year my Aunty won BEST SCONE in the show.

I would like to express my gratitude to President Dalton Dupuy and the entire Show Society committee, volunteers, stall holders and local farmers for their tireless efforts in bringing this event together. An event like this wouldn't happen without their dedication and commitment which are truly commendable.

Regards,

Darryl Houston
Mayor

CEO'S CORNER

As we move into spring, we have cause to reflect and in doing so we realise that nearly a year has passed since the current body of Elected Members took office on 17 November 2022. Time truly flies when you're busy, and indeed, the Council has been busy! As we navigate the complexities of local governance and the ever-evolving needs of our community, it is crucial that our Elected Members are equipped with the knowledge and skills to serve you effectively. To ensure this, the Members have dedicated themselves to the mandatory training programs which are designed to strengthen their capabilities in four core areas:

1. Behavioural Training: The first pillar of their training focused on identifying attributes and developing skills that uphold the legislated behavioural standards, teamwork and principles of good governance.
2. Civic Knowledge: This training focused on developing a strong understanding of the Australian system of government and how our Council fulfills the objectives of the Local Government

Act 1999 to deliver reputable community outcomes. This helps to connect the roles with how Members can shape the future of the district.

3. Legal Responsibilities: Understanding the legal responsibilities of a Council Member is vital to ensuring that our governance adheres to the highest standards, and aligns with community expectations. Our Members have dedicated themselves to acquiring the knowledge and skills in this area.
4. Strategy & Finance: In today's world, responsible management of public funds and the ability to develop integrated strategic and annual business plans are essential for effective governance. Our Members have committed to enhancing their expertise in these areas to ensure our community's resources are managed wisely.

As CEO, I commend the dedication of the Elected Members and their commitment to upholding these vital standards across their first year in office as a new team. The completion of the training highlights their genuine desire to serve you, our community, to the best of their abilities.

Nathan Cunningham
Chief Executive Officer

How to stay

Council delivers its news in different formats, and you have the option of receiving it in the best way that suits you!

Pick up a hard copy in Council facilities and various public outlets throughout the District.

Alternatively, you can find monthly editions and subscribe to receive it by email, by scanning the QR Code or visiting https://bit.ly/dcy_intheloop

If you cannot access our news in any of the above formats, request to have a hard copy posted to you by calling us on 8558 0200 or by emailing council@yankalilla.sa.gov.au

Citizen of the Year Nominations

2023 Citizen of the Year Award Winners

Each year, South Australia celebrates the achievements and contributions of outstanding members of their communities through the Citizen of the Year Awards. These individuals offer remarkable service each day and so often this is invisible to us. They don't do it for the praise or for recognition – they do it simply because it makes a difference to the people of our state.

The Citizen of the Year Awards comprises of 4 major categories:

Citizen of the Year Award: The most outstanding Citizen for the local government authority.

Young Citizen of the Year Award: The most outstanding Young Citizen for the local government authority.

Community Event of the Year Award: A person or group who has staged the most outstanding community event.

Award for Active Citizenship: A person or group delivering outstanding work on an event or

project for the community during the past calendar year.

The Citizen of the Year Awards rely on nominations from the public. If there is an unsung hero in our community who you would like to nominate, you can either drop into council to pick up a hard copy nomination form or nominate online through the Citizen of the Year website:

www.citizenoftheyear.com.au

Be quick! Nominations close 17 November 2023

Healthy Pet Ownership

Australia has one of the highest rates of pet ownership in the world, with 68.7% of Australian households having pets.

Most of us consider pets to be part of the family and, in return, having a pet has been shown to have positive health benefits.

Studies show owning a pet can reduce stress, increase rates of exercise and even reduce the incidence of allergies and help strengthen the immune system in children exposed to pets in early childhood.

But despite these benefits, we need to be aware that our pets can share more than love with the rest of your family.

Pets can carry bacteria, viruses, parasites and fungi which can be transmitted to humans, especially young children, through bites, poop, saliva or pet 'dandruff'.

Here are some simple tips about avoiding infections from your pets:

1. Make sure your pets are fully immunised, dewormed and have had appropriate flea treatments.

2. Cats and dogs may pass on Salmonella infections if they eat raw meat so it is best to feed them a balanced diet of a commercially prepared food and try to keep cats inside so they cannot eat wild birds or animals

Cats can also pass on the infective stage of Toxoplasma parasites if they are fed raw meat and that can be particularly risky for pregnant women and their unborn babies, the elderly and people with weakened immune systems.

Try to avoid cleaning out litter trays if you are pregnant and empty litter trays daily as the parasites in the cat's faeces don't become infectious until 24 hours after being excreted from the cat.

3. Try to keep pets out of areas where you are preparing food, especially kitchen benchtops.

As always, wash your hands with soap and dry thoroughly before handling food and after handling your pet, their food or toys. Don't let your pets lick or take food from your plate.

Don't wash pet food bowls in with your own dishes, preferably wash them in a separate laundry sink if you have one.

4. Responsible pet ownership involves a lot of picking up poop which can transfer germs to your hands.

Always wash your hands after cleaning out cages, fish tanks, sandboxes (including sand toys) and cat litter as well as after picking up after your dog.

When out walking your dog, and if you have been picking up poop, make sure you wash your hands or use hand sanitiser before you eat or drink anything, or prepare food for others.

5. Make sure to secure and cover children's sandboxes when they are not in use to deter cats from using them as makeshift litterboxes.
6. Birds, including your backyard chooks as well as reptiles, have been linked to Salmonella infections in people.

Make sure you and your children wash your hands after handling them or cleaning their environment.

Always wash your hands after collecting eggs.

7. Avoid walking without shoes in parks or other areas that could be visited by dogs or cats, as you may contract parasites from contaminated soil or sand through your skin.

YABBY NET SWAP

IN SEPTEMBER, THE DISTRICT COUNCIL OF YANKALILLA FUNDED
A YABBY NET SWAP PROGRAM FOR LOCAL RESIDENTS, DUE TO
THE BAN OF OPERA HOUSE YABBY NETS AS OF JULY 2023.

63

new, legal nets were swapped in exchange for 65 old, illegal, opera house yabby nets.

The old nets have been pulled apart, separating the metal frames which will be recycled at our local recycling depot, with any funds being donated locally.

Thank you to Fleurieu Fishing and Outdoors for local supply of the nets. The partnership with the Fleurieu Coast Community Nursery made this project accessible for community to swap nets at an ideal location.

Thank you to those who participated and are now actively protecting wildlife with their new nets.

Capital Projects Update

We are pleased to provide an update on Council's capital projects. We encourage the community to visit our website for a detailed breakdown of the total budget of project expenditure for each project. All information is current as of the time of publishing.

Normanville SLSC & Café/Kiosk

Interior works continue at the Normanville SLSC Cafe/Kiosk

The Normanville SLSC & Cafe/Kiosk project is progressing well on multiple fronts. The interior work is advancing with wall and ceiling linings and the installation of hard flooring in public restrooms. Meanwhile, external civil preparation is also underway, with concrete works expected to commence in the coming weeks. This progress confirms that the project is moving steadily towards its completion goals while maintaining a good level of efficiency.

Interior Works - The project is making significant progress on the interior. The focus is currently on wall and ceiling linings, a crucial step in ensuring the building's structural integrity and aesthetics. These linings provide a smooth and finished appearance and serve functional purposes like insulation and soundproofing.

Flooring Installation - The team has started the installation of hard flooring, specifically tiles, in the public restrooms. The choice of tiles indicates attention to both durability and aesthetics. Tiles are easy to clean and maintain, making them a practical choice for high-traffic areas like public restrooms. This step brings us one step closer to completing these facilities for public use.

External Civil Preparation - Beyond the building's interior, significant progress is being made in external civil preparation. This involves the groundwork and infrastructure necessary to support the building. The mention of concrete works in coming weeks, refers to concrete pouring for works on foundations, pathways and other external structures, ensuring the stability and accessibility of the facility.

Upcoming Milestones: Concrete pours scheduled for a few weeks' time will be a key milestone to watch for. Concrete pouring is often a significant step in construction and its completion will mark a major achievement in the project's timeline.

The efforts of the construction team have been instrumental in attaining substantial milestones, thereby guaranteeing that the construction project stays on course and adheres to the predetermined timeline.

At its August 2023 special meeting, Council resolved to enter into formal leasing arrangements with two proposed tenants of the key spaces within the new Normanville SLSC & Cafe/Kiosk building: The Normanville Surf Life Saving Club INC. on non-commercial terms; and Kenton Day (Firkin Burger PTY LTD) on commercial terms. Further details on the Council resolutions can be found on Council website within the August Special Council Meeting minutes.

Public Consultation on the leases, a requirement of Section 202(2) of the Local Government Act 1999 and Councils Public Consultation Policy, commenced on Thursday 4 August and concluded on Thursday 14 September 2023.

A further report to Council on the outcomes of the Public Consultation will be tabled at an upcoming meeting of the Council.

On Tuesday 3 October 2023 an Elected Member Forum was held where a presentation by the CEO, Director Assets and Environment and representatives from Wallmans Lawyers provided details on key lease elements, with input provided by Elected Members ahead of lease finalisation. Draft Leases for both tenants are currently being drawn up by Wallmans Lawyers and will be distributed to the Lessees as part of the formal negotiations.

BIG4 Normanville Jetty Holiday Park & Future Management Model Options

Following a presentation to Elected Members in August which was held in confidence due to commercially sensitive information being discussed, Council's primary focus has been on a more detailed exploration into two potential management models for the park.

Recognising the importance of selecting a single management model for the park's future, the Administration has taken the initiative to conduct a thorough evaluation of two out of the six models previously considered. This evaluation encompasses financial, governance, and risk aspects.

1. Management License Model
2. Section 42 Committee (Subsidiary)

A separate report is currently in the process of being prepared for Council's review and consideration, with the intent of advancing a preferred model in the coming months. Initially, this report will be presented to the Council's Audit and Risk Committee as part of the October Agenda, following which it will be presented to the Council along with a recommendation from the committee.

BIG4 Normanville Jetty Holiday Park

Normanville Foreshore

Neo Infrastructure are continuing work on Stage 2 of the Normanville Foreshore Upgrade, with stormwater drainage works and extension to the existing concrete retaining walls completed.

Preparation work for the exposed aggregate concrete plaza is ongoing with concrete work expected to commence in the final week of October 2023. Neo Infrastructure is expecting to complete the stage 2 works in early November 2023 (weather permitting).

Once all hardscape works are completed as part of Stage 2, Council's Parks and Gardens staff will complete the soft landscaping and lay new turf in front of the SLSC & Café/ Kiosk. Site fencing is to be removed to coincide with the completion of the SLSC & Café/ Kiosk build, allowing access for the community to the new plaza area.

Stage 2 will require the temporary closure of the old beach access ramp while works are being undertaken. Pedestrians are encouraged to use the new beach access with directional signage to be erected onsite. Once works

are completed this ramp will be reopened to the public.

Downer Group are currently programmed to undertake the reseal of the Foreshore Carpark, from the Big 4 Normanville Jetty Holiday Park entrance in early November. It is expected that the work will require total closure of the car park to the public for two days for safety. Once the exact dates of these works are confirmed Council will provide advanced notice via various media platforms and through localised signage.

Wheel stops are ready to be installed in the car parking area once the resurfacing works are complete. These wheel stops will be installed for all car parks fronting footpath areas within the foreshore.

Yankalilla Cultural Centre and Library

Library Build

Practical completion for the construction of the new library building was issued prior to its official opening, with a defect inspection undertaken at this time. All defects identified by the project team as critical have now been completed by

Building Solutions (the Builder) within the initial prescribed period. However, several other identified defects remain outstanding and others are inappropriately rectified.

Discussions around remedying the defects are progressing in line with each parties' obligations under the contract.

At the time of preparing this report, Council, the Builder and Superintendent have held a dispute resolution conference in accordance with clause 42 of the AS4000 Contract. Further discussion is ongoing between the Builder, Superintendent and Council working towards resolving all matters outstanding under the contract.

Notwithstanding the above, the project remains under a defect liability period until January 2024 with responsibility under the contract for the Builder to complete any work to rectify defects during this time, including any additional defects identified. Council holds a bank guarantee as security, to be released once all contract matters are resolved and the contract reaches final completion.

Websites, Google & Email Marketing for your business

Did you know?

As of December, we will be changing our event booking platform. We be moving over to **Humanitix**, instead of Eventbrite. All Library on-line and physical information and flyers etc. will carry the new address.

COMING SOON

The January 2024 school holiday program will be out and ready to book.
