<b>Warning:</b>	This document is uncontrolled when printed.		

## 1. Introduction

District Council of Yankalilla (DCY) is committed to an integrated approach to risk management to assist in setting appropriate strategies, achieving objectives and making informed decisions, in the best interests of our community.

District Council of Yankalilla recognises that managing risk is part of governance and leadership, is fundamental to how the organisation is managed at all levels and will contribute to continuous improvement of its management systems.

District Council of Yankalilla's Vision states:

### VISION 2030

*The long-term vision will be guided by five themes. The first four years will be shaped by 12 community priorities obtained through consultation. This is the story of the future of our district as told by over 1,000 participants during an unprecedented community engagement program:*

*The risk management process is not an isolated function and should be applied to all activities, including decision making, at all levels. Effective identification, analysis, evaluation and treatment of risks is critical to District Council of Yankalilla achieving its objectives and meeting stakeholder expectations.*

## 2. Purpose

This Framework outlines the requirements and processes supporting District Council of Yankalilla's Risk Management Policy to create and protect value by improving performance, encouraging innovation and supporting the achievement of strategic objectives.

This Framework:

- a) Aligns with the objectives of the Risk Management Policy;
- b) Establishes roles and responsibilities for managing risk;
- c) Documents a standardised, formal and structured process for assessment, evaluation, treatment and monitoring of identified risks;
- d) Encourages innovation by integrating risk management into the strategic and operational processes throughout the organisation;
- e) Will assist District Council of Yankalilla in maximising its opportunities, whilst minimising negative impacts identified during the risk management process;
- f) Establishes the process for all risks outside the defined risk appetite (when defined) to be escalated to the appropriate level and for additional treatment options to be implemented;
- g) Sets out reporting protocols for relevant risk information to be provided to Council, Audit and Risk Committee, Executive Leadership Team and throughout the organisation; and

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

- h) Will support the development of a continuous improvement culture by integrating risk management processes throughout the organisation.

### 3. Local Government Risk Services (LGRS)

From the perspective of the Local Government sector in South Australia, certain insurable risks have been transferred to a number of self-managed Schemes managed by Local Government Risk Services (LGRS), via payment of an annual contribution. The Schemes are:

- a) Local Government Association Mutual Liability Scheme (LGAMLS) for the purposes of Civil Liability coverage & claims management;
- b) Local Government Association Workers Compensation Scheme (LGAWCS) for the purposes of workers compensation coverage & claims management; and
- c) Local Government Association Asset Mutual Fund (LGAAMF) for the purposes of asset and fleet coverage and claims management.

As a member of the above Schemes and Fund, District Council of Yankalilla must ensure that it has developed, endorsed and implemented WHS, asset and risk management protocols.

LGRS provides a range of fully funded and subsidised programs and support services to assist in managing risk across the organisation.

### 4. Risk Management Principles

The Australian standard for Risk Management Guidelines (AS ISO 31000:2018) describes risk as:

“...the effect of uncertainty (either positive, negative or both) on objectives...”

The goal is not to eliminate all risks, but rather to manage risks involved in delivering District Council of Yankalilla’s functions and services and to create and protect value for stakeholders and community.

AS ISO 31000:2018 is based on the following eight principles, which underpin this Framework and guide how risk is managed across the organisation:

Integrated	An integral part of all organisational processes
Part of decision-making	Aids decision-makers in making informed choices and identifying the most effective course of action
Structured and comprehensive	Contributes to efficiency and to consistent and comparable results
Best available information	Based on historical and current information, as well as on future expectations, taking into account any limitations associated with such information and expectations.
Customised	Aligns with the internal and external context related to our objectives
Human and cultural factors	Recognises that the behaviour and culture can significantly influence the achievement of objectives

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Inclusive	Requires appropriate and timely involvement of stakeholders to enable their knowledge, views and perceptions to be considered
Dynamic	Anticipates, detects, acknowledges and responds to changes in Member's internal and external contexts that result in new risks emerging and others changing or disappearing
Continual improvement	Learning and experience drives continuous improvement

## 5. Risk Management Framework

### 5.1. Leadership and commitment

District Council of Yankalilla and its Executive Leadership Team will demonstrate a clear commitment to managing risks throughout the organisation by:

- a) Developing and implementing a risk management policy, framework and supporting tools and processes;
- b) Allocating appropriate resources to implement, monitor and improve the effectiveness of risk management;
- c) Ensuring that staff, contractors, volunteers and other relevant stakeholders have the appropriate skills and knowledge to deal with risk;
- d) Allocating and upholding accountability with respect to risk management and ensuring it is understood; and

Risk Management Framework		Version 2.0 /	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

- e) Ensuring compliance with legislative and contractual obligations and policy requirements.

5.2. Integration

This Framework provides the methods and processes District Council of Yankalilla use to manage risks and identify opportunities throughout the organisation.

Governance guides the direction of the organisation and provides the rules, processes and practices necessary to achieve objectives.

Management structures that define risk management accountability and oversight roles across the organisation are critical to achieving sustainable performance and long-term viability.

Risk Management is not just about the risk assessment process nor is it a stand-alone discipline. In order to maximise benefits and opportunities, it requires integration throughout the organisation, as follows:

5.2.1. Enterprise Risk Management

Enterprise risk management encompasses strategic, operational and project risk management.

Strategic risks are identified by reference to both the external environment and strategic objectives. Strategic risks are monitored by the Executive Leadership Team, Audit and Risk Committee and Council, with all risk assessments captured in the Risk Register and recorded within the record management system (Skytrust and/or DCY document management system).

Operational Risks arise from day-to-day functions and operations to deliver core services. Operational risks are monitored by the Executive Leadership Team.

Risk Management Framework		Version 2.0 /	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Project Risks are the uncertain events or conditions that have potential to impact either positively or negatively on project objectives. Project risks are monitored by the project manager and reported to the Executive Leadership Team and the Council, (where the project is of strategic significance.)

5.2.2. Strategic planning and decision making

Strategic and business planning, (which includes long-term financial planning and annual budgeting,) must adequately consider the risks inherent in setting and pursuing objectives and the effectiveness of systems that are in place to manage and communicate those risks.

Risk management is integrated into governance structures, including decision making, which is supported by incorporating risk analysis into Council and committee reports, where there is a potential impact on the achievement of strategic objectives or on the wider community.

5.2.3. Legislative compliance

The Local Government Act (SA) 1999 applies to the functions of Councils and Prescribed Bodies in South Australia, however, due to the diversity of functions provided, a range of other Acts, Regulations and Codes of Practice and Standards also apply.

District Council of Yankalilla has implemented a Work Health and Safety (WHS) management system to manage hazards and risks to workers and members of the public, in accordance with the WHS Act (SA) 2012 and Return to Work SA's Performance Standards for Self-Insurers.

5.2.4. Service Delivery

Risk exposures vary according to the functions, facilities and services provided and these will inevitably change over time. District Council of Yankalilla's planning processes address both the risks associated with provision of functions, facilities and services, (such as capacity and resources,) and risks arising from their delivery, (such as public safety and community reaction).

5.2.5. Internal audit

Internal audit is an independent, objective assurance activity designed to add value and improve the organisation's operations. It provides a systematic, disciplined approach to evaluating and improving the effectiveness of risk management, control and governance processes. The process of internal audit may result in the identification of new risks or more effective treatments for existing risks. District Council of Yankalilla shall establish an internal audit program.

In addition to its own internal audit program, District Council of Yankalilla engages an independent auditor to undertake an audit of internal controls as required by Section 125 of the Local Government Act (SA) 1999 and Part 6, Regulation 19 of the Local Government (Financial Management Regulations) 2011

5.2.6. Emergency Management

District Council of Yankalilla plans for, and undertakes, prevention, preparedness, response and recovery activities to support its community in the event of emergencies and natural disasters. This process includes alignment and co-operation with lead agencies and other Councils in the state as well as providing information and training for workers to protect them from harm whilst responding to emergencies and natural disasters.

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

### 5.2.7. Business Continuity Plan & Information Technology Disaster Recovery Plan

District Council of Yankalilla is committed to ensuring that critical business functions continue after a business interruption and has developed the following plans, taking into consideration reasonably foreseeable risks and their potential impact on achievement of objectives:

- a) The Business Continuity Plan (BCP), which is designed to manage risk by limiting or reducing the impact of a disruption, (such as severe weather event or loss of key personnel), and enable the resumption of critical business functions/services following a disruption; and
- b) DCY is in the process of developing an Information Technology Disaster Recovery Plan (DRP), which is intended to protect and recover information technology infrastructure and data in the case of a disruptive event, (such as cyberattack or damage to/loss of infrastructure,) by defining actions to be taken before, during and after an event.

### 5.2.8. Performance Management

Both risk management and performance management start with the establishment and communication of corporate goals and objectives and development of strategies which are then cascaded throughout the organisation.

Appropriate measures and reporting structures will be put in place to monitor the effectiveness of risk management processes, (at an individual and organisational level), which will in turn assist in identifying gaps and emerging risks.

The performance of District Council of Yankalilla's risk management program will be measured through three distinct categories:

Measure	Frequency
Compliance with the policy and related documentation	Annual
Foreseeable risks are identified and controlled within risk appetite, where reasonably practicable	Biannual
Tangible improvement in risk evaluation outcomes and risk maturity modelling	Biennial

### 5.2.9. Information / Data Management

Not only is it critical to the achievement of objectives that data and corporate knowledge is retained, there are regulatory requirements to do so, (e.g. compliance with the State Records Act 1997, Commonwealth Privacy Act 1988 and Freedom of Information Act 1991.)

District Council of Yankalilla's records may be vulnerable to cyberattack, malicious intent or unauthorised release, should appropriate risk mitigation strategies not be in place.

Risk Management Framework		Version 2.0 /

<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

### 5.3. Design

#### 5.3.1. Understanding the organisation and its context

Establishing the context requires those involved in risk management and decision-making processes to understand factors internal and external to the organisation that may influence District Council of Yankalilla's ability to achieve its objectives.

Risk management culture, organisational structure, strategy and objectives are examples of factors that define internal context.

The external environment may include a range of factors such including (but not limited to):

- a) increased legislative and compliance requirements;
- b) reduced funding from State Government;
- c) community expectations; and
- d) social, cultural, political, technological, economic, natural and built environment.

#### 5.3.2. Roles and responsibilities

The following roles and responsibilities ensure a transparent approach to managing risk within District Council of Yankalilla:

Roles	Responsibilities
Council	<ul style="list-style-type: none"> <li>• Set the organisation's risk appetite and policy for managing risk;</li> <li>• Give adequate consideration to risks when setting objectives and making decisions;</li> <li>• Foster a culture that is consistent with the organisation's appetite for risk;</li> <li>• Ensure the organisation has the structures and processes in place to support decision making and management of risk;</li> <li>• Set an appropriate governance structure for risk and risk management including Audit and Risk Committee and delegations;</li> <li>• Require the CEO to demonstrate that the framework for managing risk is effective and appropriate; and</li> <li>• Require the CEO to provide information to allow the Council to understand the risks that may have material impacts on achievement of the organisation's objectives.</li> <li>• Consider recommendations from the Audit and Risk Committee relating to strategic risks or any other risk matter</li> </ul>
Audit and Risk Committee	<ul style="list-style-type: none"> <li>• Review the criteria contained within the Risk Management Framework</li> <li>• Review reports from Executive Leadership Team and</li> </ul>

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Roles	Responsibilities
	<p>auditors to ascertain the adequacy of controls that have been implemented</p> <ul style="list-style-type: none"> <li>• Review Council Projects risk management reports related to                             <ul style="list-style-type: none"> <li>○ Financial statements</li> <li>○ Timeframes</li> <li>○ Strategic Risks</li> </ul> </li> <li>• Monitor strategic risks on an annual basis</li> </ul>
Chief Executive Officer (CEO)	<ul style="list-style-type: none"> <li>• Promote a strong risk management culture by providing firm and visible commitment to risk management including ensuring appropriate accountability for the management of risk</li> <li>• Review and endorse the Risk Management Framework</li> <li>• Develop and implement a framework that delivers a consistent approach to risk management by allocating resources and assigning authority, responsibility &amp; accountability at appropriate levels within the organisation</li> <li>• Allocate and uphold accountability for managing risk</li> <li>• Ensure Executive Leadership Team have the necessary knowledge and skills to effectively fulfil their risk management responsibilities</li> <li>• Regularly review strategic and operational risks and maintain an understanding of the environment in which the organisation operates, the risks it faces and the effectiveness of its controls</li> <li>• Ensure compliance with legislative and contractual obligations and policy requirements</li> <li>• Provide reliable information about risks, controls and their effectiveness to Council</li> <li>• Escalate all strategic risks that exceed the organisation's risk appetite to the Audit and Risk Committee or Council, as required</li> </ul>
Executive Leadership Team	<ul style="list-style-type: none"> <li>• Commitment to, and promotion of, the risk management policy and framework</li> <li>• Monitor the organisation's overall risk profile and mitigation strategies</li> <li>• Ensure that risk management is embedded into all functions and activities, including decision making</li> <li>• Ensure that risks that cannot be treated immediately are recorded on the risk register and that there is ongoing and regular review of the risk register, (including follow up and close out of overdue risk treatments)</li> </ul>

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Roles	Responsibilities
	<ul style="list-style-type: none"> <li>• Incorporate risk treatments into (departmental / divisional / business unit) plans</li> <li>• Ensure that staff, contractors, volunteers and other relevant stakeholders have the appropriate skills to be actively be involved in managing risk</li> <li>• Provide incentives and performance management arrangements that support the desired approach to managing risk</li> <li>• Promote a proactive risk culture in accordance with business management initiatives</li> <li>• Collectively review strategic risks and consider emerging risks, (prior to Audit and Risk Committee)</li> <li>• Ensure compliance with legislative and contractual obligations and policy requirements</li> </ul>
WHS and Risk Advisor	<ul style="list-style-type: none"> <li>• Provide guidance and assistance to Executive Leadership Team and staff in relation to the application of this framework</li> <li>• Ensure relevant risk information is recorded in the Risk Register and reported and escalated to the Executive Leadership Team or cascaded to staff, as relevant</li> <li>• Maintain the Risk Management Policy and Framework to ensure its currency and relevance</li> <li>• Maintain the Risk Register and reporting timeframes as required</li> </ul>
Employees, Volunteers & Contractors	<ul style="list-style-type: none"> <li>• Understand the risk management processes that apply to their area of work</li> <li>• Identify, evaluate, report and manage, (or escalate,) risks relating to daily activities and projects</li> </ul>

### 5.3.3. Implementation

This risk management framework will be supported by an implementation plan that includes timeframes and resource requirements and processes for engagement with, and provision of information to, relevant stakeholders.

### 5.4. Evaluation

District Council of Yankalilla will undertake periodic reviews of this risk management framework and the implementation plan to evaluate their effectiveness and determine whether they remain suitable in supporting the achievement of strategic and operational objectives.

### 5.5. Improvement

To maintain and improve the value of risk management to the organisation, District Council of Yankalilla will monitor and adapt this risk management framework, with a view to continually improve the suitability, adequacy and effectiveness of its risk management process.

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

## 6. Risk Management Process

Having good risk management practices in place provides District Council of Yankalilla with assurance that measures are in place to maximise the benefits and minimise the negative effect of uncertainties in pursuit of its strategic objectives. Risk management involves both the management of potentially adverse effects as well as the fulfilment of potential opportunities. The risk management process is an integral part of management and decision-making and will be integrated into the organisation’s structure, operations and processes.

The dynamic and variable nature of human behaviour and culture should be considered throughout the risk management process.

Although the risk management process is often presented as sequential, in practice it is iterative as illustrated in the AS ISO 31000:2018 Risk management – guidelines:

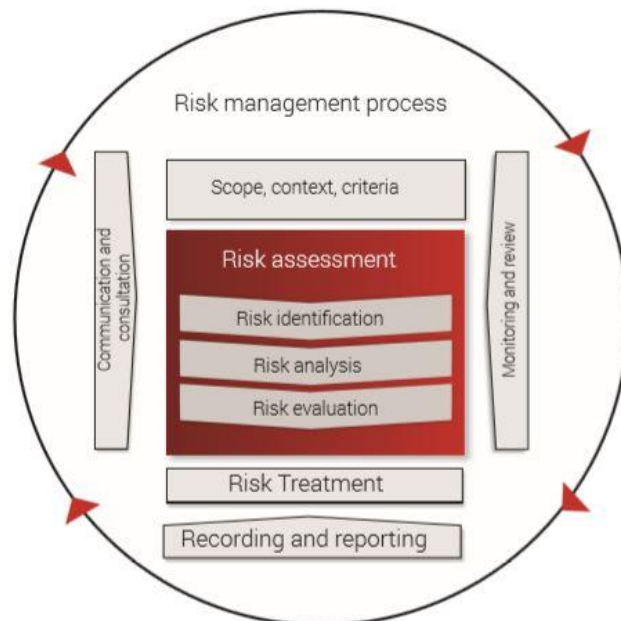

Diagram source: Standards Australia Limited, AS ISO 31000:2018 Risk management – guidelines, SAI Global Limited, Sydney, 2018. © Standards Australia Limited. Copied by JLT Risk Solutions Pty Ltd with permission of Standards Australia and Standards New Zealand under Licence 1811-c079.

Risk Management Framework		Version 2.0 /	
The electronic version held on ERDMS is the controlled version of this document.			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

6.1. Communication and Consultation

Establishing a communication and consultation plan with internal and external stakeholders is critical to the success of the risk management process. Effective communication and consultation throughout the process is essential to ensure that those responsible for implementing risk management, and those with a vested interest, understand the basis on which risk management decisions are made and why particular actions are required.

District Council of Yankalilla will engage with stakeholders throughout the risk management process to:

- a) Correctly identify risks and understand context;
- b) Gain a better understanding of the views and interests of stakeholders and how their expectations may be managed;
- c) Capitalise on the diversity of knowledge, opinions and experience to enhance identification and management of risks and opportunities; and
- d) Build a sense of inclusiveness and ownership amongst stakeholders.
- e) DCY Communication & Consultation Procedure to be utilised

6.2. Scope, context and criteria

6.2.1. Defining the scope

District Council of Yankalilla will engage with stakeholders throughout the risk management process to:

- a) Correctly identify risks and understand context;
- b) Gain a better understanding of the views and interests of stakeholders and how their expectations may be managed;
- c) Capitalise on the diversity of knowledge, opinions and experience to enhance identification and management of risks and opportunities; and
- d) Build a sense of inclusiveness and ownership amongst stakeholders.
- e) DCY Communication & Consultation Procedure to be utilised

6.2.2. Defining the context

Defining the context is important because

- a) Risk management takes place in the context of achieving objectives and undertaking activities; and
- b) Organisational factors can be a source of risk.

The context should reflect the specific environment of the activity to which the risk management process is to be applied, and consider the factors outlined in **Error! Reference source not found.**

Risk Management Framework		Version 2.0 /	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

### 6.2.3. Defining risk criteria

Risk criteria are used to evaluate the significance of risk and are reflective of District Council of Yankalilla's values, objectives and resources and the views of its stakeholders. Agreed risk criteria have been established through consultation with Executive Leadership Team, CEO, and Council.

It should be noted that, whilst risk criteria are documented in this framework and its appendices, they are dynamic and should be reviewed and amended to reflect the organisation's attitude to risk and risk appetite, as necessary.

## 6.3. Risk Assessment

### 6.3.1. Risk Identification

The aim of risk identification is to develop an inclusive list of reasonably foreseeable events that may occur that - if they do - are likely to have an impact on achievement of objectives.

District Council of Yankalilla identifies, assesses and treats risk in the following three risk types:

<b>Strategic</b>	Risks associated with high-level strategic objectives that are articulated in Strategic, Annual Business and Asset Management Plans. Strategic risks may affect the achievement of Member's corporate objectives. They are key issues for the Council and Executive Leadership Team and impact the whole organisation rather than a (department / division / business unit). These risks can originate from within the organisation or externally.  In other words, they may prevent the organisation from achieving its strategic objectives.
<b>Operational</b>	Risks associated with (departmental / divisional / business unit) functions and daily operations to deliver core services. Often the risks relate to cost overruns, supply chain/logistic issues, employee issues, fraud, WHS, non-compliance to policies and procedures.
<b>Project</b>	Risks associated with Project Management that will affect milestones or outcomes connected to delivering a specific project.

Risk identification naturally flows on from the context discussion and is a process of formally documenting the effects of uncertainty on objectives. An effective approach is to engage as many stakeholders as possible in a structured identification process.

The Executive Leadership Team will undertake a review of strategic risks every 6 months.

The aim is to generate a list of risks based on those impacts or events. During the identification process, there are a number of questions that need to be asked to capture the information required:

- a) What might happen/ what could go wrong?
- b) What is the cause?
- c) How does this affect the objective?

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

After a risk is identified, it may be categorised and captured in the Risk Register in accordance with the following categories:

The process of risk identification must be comprehensive as risks not identified are by nature excluded from further analysis. Care must be taken to identify and define risks, rather than causes or consequences.

Capturing an additional level of detail with regards to risk areas assists in reporting and analysing trends. An example of this can be found in appendix E.

### 6.3.2. Risk Analysis

Risk analysis involves developing an understanding of a risk. It provides an input to risk evaluation and to decisions on whether risks need to be treated, and the most appropriate risk treatment strategies and methods. The tables included in the appendices are District Council of Yankalilla’s tools for expressing the consequence, likelihood and level of risk.

#### 6.3.2.1. Risk Rating

A “risk rating” can be determined by combining the estimates of effect (consequence rating) and cause (likelihood rating). The risks are to be assessed against all consequence categories; and the highest consequence rating will be used. The following risk ratings are used:

- a) Inherent risk rating, being the level of risk at time of risk assessment with no controls;
- b) Residual risk rating, being the level of risk once further and additional controls are added to reduce the consequence and/or likelihood, (i.e. the forecast level of risk remaining after risk treatment).

#### 6.3.2.2. Risk Appetite

The Council Members, (with support from the Executive Leadership Team,) are responsible for defining District Council of Yankalilla’s risk appetite, taking into consideration the nature and extent of the risks the organisation is willing to take in order to achieve its strategic objectives.

In arriving at its risk appetite, Council Members will give consideration to:

- a) The degree to which decision makers are permitted to expose District Council of Yankalilla to the consequences of an event or situation;
- b) Aggregated and interlinked risks to determine whether the cumulative level of risk is acceptable or not;

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

- c) Allowing for flexibility to adapt, given changing environment and circumstances to be built in; and
- d) Whether decisions are made with full consideration of potential risk and reward.

District Council of Yankalilla's risk appetite will be included in regular monitoring and review of strategic risks and will be updated in line with its risk management policy, framework and supporting documentation.

### 6.3.2.3. Risk Tolerance

Not all risk types for District Council of Yankalilla are the same in terms of their acceptability. Once a risk appetite has been set, it is useful to define tolerance levels for each category. Risk tolerance can be described as the boundaries of risk taking outside of which the organisation is not willing to accept in order to achieve its objectives. While risk appetite is usually expressed in qualitative terms, tolerance is expressed quantitatively, (i.e. a variance).

If the assessed risk level is outside of the risk appetite but within the tolerable level for that category of risk, then treatment will be required. If it is equal to, or below, the tolerable level for that category of risk then the risk may be accepted (provided the controls are implemented).

### 6.3.3. Risk Evaluation

Risk Evaluation is the process used to assist in making decisions, based on the outcomes of risk analysis, about which risks need treatment and the priority for implementation of controls. Decisions should take account of the wider context of the risk and include consideration of the risks borne by other parties. There are also circumstances whereby, despite the risk level, risks cannot be prevented or reduced, and the focus will instead be on recovery and resilience.

When a risk has been identified or reassessed, the following table provides guidance on the action to be taken for each risk rating level:

Risk level	Managing risk – priority rating
Extreme	Add risk to Risk Register Escalate risk issue immediately to CEO CEO to: <ul style="list-style-type: none"> <li>Refer risk to risk owner</li> <li>Identify and develop treatment strategies for immediate action</li> <li>Monitor and review actions/strategies</li> <li>Provide direction and information to relevant stakeholders</li> <li>Inform the next meeting of the Council or Audit and Risk Committee of the risk issue, the actions taken to mitigate the risk and the outcome (or current status)</li> <li>Consider cessation/suspension of the activity giving rise to the risk until such time as CEO/Management Team authorises its continuation and/or whilst other risk treatment strategies are being developed/implemented</li> </ul> For WHS related risks, the following applies: <ul style="list-style-type: none"> <li>Operation of item or activity shall not be allowed to continue until the risk level has been reduced</li> <li>Will commonly be an unacceptable level of risk</li> </ul>

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Risk level	Managing risk – priority rating
	<ul style="list-style-type: none"> <li>May include both short and long-term control measures</li> </ul>
High	<p>Add risk to Risk Register Escalate risk issue to member of Executive Leadership Team Member of Executive Leadership Team to:</p> <ul style="list-style-type: none"> <li>Refer to relevant risk owner</li> <li>Identify and develop treatment strategies with appropriate timeframes</li> <li>Monitor and review actions/strategies to manage risk to an acceptable level</li> <li>Provide direction and information to relevant stakeholders</li> <li>Inform the next meeting of the Audit and Risk Committee or Executive Leadership Team, (as relevant) of the risk issue, the actions taken to mitigate the risk and the outcome (or current status)</li> </ul> <p>For WHS related risks, the following applies:</p> <ul style="list-style-type: none"> <li>Reduce the risk rating so far as is reasonably practicable</li> <li>Should only be an acceptable level of risk for 'Major' or 'Catastrophic' consequences</li> </ul>
Moderate	<p>Add risk to Risk Register Escalate risk to Departmental Manager Departmental manager to coordinate with relevant work group to:</p> <ul style="list-style-type: none"> <li>Identify and develop treatment strategies with appropriate timeframes</li> <li>Monitor and review actions/strategies to manage risk to an acceptable level</li> </ul> <p>For WHS related risks, the following applies:</p> <ul style="list-style-type: none"> <li>Reduce the risk rating so far as is reasonably practicable.</li> <li>May be an acceptable level of risk</li> </ul>
Low	<p>Add to Risk Register Undertake localised risk management &amp; actions (if required) Review within the department parameters and routine procedures For WHS related risks, the following applies:</p> <ul style="list-style-type: none"> <li>Reduce the risk rating so far as is reasonably practicable.</li> <li>Commonly is an acceptable level of risk</li> </ul>

#### 6.4. Risk Treatment

Risk treatment can be conducted using a variety of methods. When looking at negative risks, treatments are aimed at reducing or removing the potential for consequences occurring. However, when looking at positive risks, (opportunities,) treatments look at ensuring that consequences are realised.

Risk treatment involves selecting one or more options for modifying the likelihood and/or consequence of risks and implementing those options. Once implemented, treatments provide or modify the controls. An action should be implemented to treat certain risks.

Justification for risk treatment is broader than solely economic considerations and should take into account all of District Council of Yankalilla's obligations, voluntary commitments and stakeholder

Risk Management Framework		Version 2.0 /	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

expectations. Appropriate risk treatment options should have regard to the organisation's objectives, risk appetite, risk criteria and available resources.

#### 6.4.1. Risk Treatment Priorities

Recognising that not all risks can, or should, be managed, District Council of Yankalilla has determined that it will prioritise treatment of risks in the following order:

- a) Strategic risks that exceed risk appetite
- b) Strategic risks that exceed risk tolerance
- c) Operational risks that are rated Extreme or High
- d) Operational risks that are rated either Moderate or High that exceed risk appetite.

The CEO may make exceptions to this prioritisation where there is an immediate or foreseeable risk to the health or safety of any person.

#### 6.4.2. Risk Treatment Options

Risk treatment options are not necessarily mutually exclusive or appropriate in all circumstances.

Options for negative risks may include:

<b>Eliminate</b>	<b>Remove an asset or discontinue an activity or service completely so as to eliminate the risk altogether</b>
Share	Allocate risk to a third party, such as through appropriate contactor management, (noting however that S272 of the WHS Act voids any agreement or contract that purports to transfer any duty owed under the Act.)
Mitigate	Implement a type of treatment control to reduce or remove the risk. This may include but is not limited to options such as substitution (swapping), isolation (barricade), engineering (modify by design) or administration (policy/process)
Accept	Risk can be accepted for a number of reasons including: <ul style="list-style-type: none"> <li>- no extra treatments being available;</li> <li>- meets the stated target risk appetite for the type of risk;</li> <li>- informed decision has been made about that risk; and</li> <li>- the cost of risk treatment significantly outweighs the potential risk exposure.</li> </ul>

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

For positive risks, options may include:

<b>Exploit</b>	<b>Implement strategies to capitalise on the likelihood of the risk eventuating and ensure that the organisation is able to respond quickly to the opportunities as they arise</b>
Share	Partnering with another organisation that is able to add skills or value not currently available within District Council of Yankalilla
Enhance	Influence the factors that will improve the likelihood of the opportunity arising
Accept	Maintain status quo by informed decision

In selecting any risk treatment, consideration must be given to new risks that may arise from implementing it and the processes outlined in this framework applied to those new risks.

#### 6.4.3. Control Characteristics

Risk treatments need to be designed in a manner to ensure they are sufficient to mitigate that risk, and have some of the following characteristics if they are to become an adequate control:

- a) Documented (e.g. Policies, procedures, task lists, checklists)
- b) Systems-oriented (e.g. integrated and/or automated)
- c) Preventative (e.g. system controls) or detective
- d) Consistent and regular (including during staff absence)
- e) Performed by competent and trained individuals
- f) Clear responsibility and accountability
- g) Create value (i.e. benefits outweigh costs)
- h) Achievable for the organisation (based on available resources)
- i) Evidenced (i.e. documented or electronic audit trail)
- j) Confirmed independently

#### 6.4.4. Preparing and implementing risk treatment plans

Risk treatment plans specify how the risk treatment options will be implemented, so that those involved understand what arrangements are in place and to allow progress against the plan to be monitored. Risk treatment plans are documented within the (risk register) and project management plans and provide the following information:

- a) Rationale for selection of treatment options;
- b) Responsibilities and accountability for approving and implementing the plan;
- c) Proposed actions and timeframes;
- d) Resourcing requirements;
- e) Constraints and contingencies; and
- f) Required reporting and monitoring.

Risk Management Framework		Version 2.0 /	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

6.5. Monitoring and Review

6.5.1. Review of risks and controls

Monitoring and review involves regular checking or surveillance of the effectiveness and efficiency of the risk management processes implemented.

A monitoring and review process will:

- a) Ensure that implemented controls are effective and adequate;
- b) Provide further information to improve risk assessment and treatment plans;
- c) Allow for the identification of emerging risks;
- d) Identify any new factors that may influence established strategies to mitigate risks.

It is essential to monitor all activities and processes in order to capture new or emerging risks arising from the changing environment, (both internal and external) and the activities undertaken by District Council of Yankalilla’s employees, contractors and volunteers.

Monitoring and review guidelines and timeframes are captured in the Risk Reporting structure, (see section 7.)

6.5.2. Project risk

Due to the dynamic nature of most projects, a risk may change over the project lifecycle, triggering the need for reassessment. The monitoring and scheduled review process allows for both validation of risks to ensure that they remain relevant and adaptation of project plans as necessary.

Any changes in risks throughout the project and following completion should be recorded and used for future project planning.

6.5.3. Internal audit

District Council of Yankalilla is in the process of establishing an internal audit program.

The internal audit program is ‘risk based’ and provides assurance that we are managing our risks appropriately. In developing the Internal Audit Plan, consideration will be given to the extreme, high and moderate risks identified by the risk assessment process. Internal audits assess the adequacy of selected controls identified.

The internal audit process will measure risk by:

- a) **Measuring compliance** – has the organisation met its Policy objectives
- b) **Measuring maturity** – measuring against best practice and sector benchmarking
- c) **Measuring value add** – has the framework and risk culture added to the achievement of District Council of Yankalilla’s strategic objectives

Information is shared between the risk management and internal audit functions. Changes in our risk profile are reflected in our Internal Audit Plan. Similarly, control issues identified through internal audit will inform our Risk Management Framework. The internal audits are conducted to provide assurance that key risks have been identified and the controls in place are adequate and effective, as per the following table:

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Rating	Definition
Design adequacy	
Adequate	The control is designed in a manner that it can give reasonable assurance that the risk will be mitigated. In other words, existing systems and procedures cover known circumstances and provide reasonable assurance for majority of risks.
Partially adequate	The control is designed in a way that will partially mitigate the risk and designed in a way to partially meet the design objectives.
Inadequate	The design of the control is not sufficient enough to give reasonable assurance that the risk will be mitigated. There may be no systems and procedures in place, or existing systems and procedures are obsolete and require review.
Operating effectiveness	
Effective	The control operates in a manner that is effective in terms of being consistent, complete, reliable and timely.
Partially effective	The control partially operates in a manner that is effective in terms of being consistent, complete, reliable and timely.
Ineffective	The control does not operate in a manner that is effective in terms of being consistent, complete, reliable and timely.

It is to be noted that the overall combination of the results of design adequacy and operating effectiveness will provide the overall rating of the control based on the table for overall rating. This assists in identifying improvements to existing controls.

	Effective	Partially effective	Ineffective
Adequate	Effective	Partially Effective	Ineffective
Partially adequate	Partially Effective	Partially Effective	Ineffective
Inadequate	Ineffective	Ineffective	Ineffective

Risk Management Framework		Version 2.0 /

<b>Warning:</b>	This document is uncontrolled when printed.		

## 7. Recording and Reporting

### 7.1. General

The risk management process and its outcomes will be documented and reported, in order to:

- a) Communicate risk management activities and outcomes;
- b) Provide information for decision making;
- c) Provide opportunities for continuous improvement;
- d) Assist interaction with stakeholders, including those with responsibility and accountability for risk management activities.

Records will be managed and retained in accordance with State Records General Disposal Schedule for Local Government.

### 7.2. Risk Register

The risk register enables the organisation to document, manage, monitor and review strategic, operational and project risk information in order to build a risk profile and provide direction on how to improve risk management processes. The risk register can be used to monitor whether, using the approach outlined in this framework, the risk management process is resulting in an increasing trend towards potential for success and less risk with negative consequences.

#### 7.2.1. Strategic risk

Strategic level risks are identified by the Executive Leadership Team and the Council as part of an annual review at a minimum and will be recorded in the risk register. Any risks identified at the strategic level may be reflected in other corporate documents e.g. Strategic Plan, Annual Business Plan, and Asset Management Plans and mitigated through actions detailed within these documents; however, should still be collated in the risk register for ease of monitoring and review.

Recording and reporting of strategic level risks is the responsibility of the WHS and Risk Advisor via Executive Leadership Team and Audit and Risk Committee.

#### 7.2.2. Operational risks

Operational risks will be recorded in the risk register and be reviewed at least bi-annually by Departmental Managers. Recording operational risks in the risk register and reporting of implementation and effectiveness of controls is the responsibility of departmental managers and workers.

#### 7.2.3. Project risks

Project level risks may be identified by the project managers at any time prior to, and during, the project management cycle and are initially recorded in the project management register and consolidated in the risk register. Recording and reporting of project risks rest with the project owner.

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

### 7.3. Risk reporting

Risk based Reports will draw data from the Risk Register and provide monitoring and profile information to Council, Audit & Risk Committee and Executive Leadership Team.

Risk reports will include:

The Risk Register reviewed and updated biannually (or when required, organisational structure change/ process change/ new project) by Departmental Managers and provided to Audit & Risk Committee; Strategic Risks reviewed by Executive Leadership Team biannually;

All new and emerging Strategic Risks reviewed by Executive Leadership Team as required; and

Any risks rated as HIGH or EXTREME after the consideration or implementation of treatment options are reported to Council's Audit & Risk Committee.

#### 7.3.1. Purpose

Risk based reports will draw data from the risk register and provide monitoring and profile information to the Council, via the Audit and Risk Committee and Executive Leadership Team to assist with:

- Understanding District Council of Yankalilla's risk exposure;
- Identifying risks that require increased attention and action;
- Providing relevant information to the Council about risks likely to impact upon achievement of strategic objectives;
- Dissemination of information to workers at all levels to support them in making risk informed decisions; and
- Improving the risk culture and awareness throughout the organisation.

#### 7.3.2. Content

Risk reporting will include:

Report content	Reported to	Frequency
Council and Committee reports to include discussion of potential risks, based on completed risk assessment and treatments, (with the exception of routine administrative matters)	Council and Committee members	All Council and Committee meetings
Review and update of the risk register by Departmental Managers	Executive Leadership Team	Biannually to Executive Leadership Team, (or as otherwise required, e.g. organisational structure change/ process change/ new project)
Report by CEO on extreme and high strategic risks, including actions taken to mitigate the risk and outcomes or current status	Audit and Risk Committee	Each meeting, (as required)
Report of strategic risks (to verify that current risks are controlled within Council's risk	Audit and Risk	Biannually

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

Report content	Reported to	Frequency
appetite & tolerances & that there are strategies to address or monitor any emerging risks that have been identified)	Committee	
Report on compliance with policy and related documents	Audit and Risk Committee	Annual
Risk evaluation outcomes and risk maturity modelling progress/ summary report	Executive Leadership Team– detail Audit and Risk Committee - summary	Biennial

## 8. Training

### 8.1. Workers

The risk management policy and framework, together with supporting tools will be made available to all workers through Skytrust.

Risk management is an overarching skill that sits across all functions and, as such, District Council of Yankalilla considers it to be a necessary competency that workers need in order to perform their day to day activities effectively. Risk Management awareness training will be provided to workers and will take into consideration the worker's role and level of past risk management experience and knowledge.

Risk management awareness training is captured on the training needs analysis (TNA), to ensure the effective implementation of this Framework.

### 8.2. Council Members

Council members are key strategic decision makers and it is therefore imperative that they have an understanding of District Council of Yankalilla's Risk Management Policy and Framework and their role in informed planning and decision making, based on sound risk management principles.

Risk management awareness training will be scheduled within 12 months of Local Government elections Audit and Risk Committee

Audit and Risk Committee members should, at a minimum, have an understanding of their roles and responsibilities as outlined in District Council of Yankalilla's Risk Management Policy and Framework, including the monitoring and review of reports and outcomes from management reviews and external audits.

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

## 9. Further Information

This policy will be available for inspection at the Council office listed below during ordinary business hours and provided to interested parties as per Council's Fees and Charges Register. Copies are available to be downloaded, free of charge, from Council's website: [www.yankalilla.sa.gov.au/policies](http://www.yankalilla.sa.gov.au/policies)

District Council of Yankalilla  
1 Charles Street  
Yankalilla 5203

Phone: (08) 8558 0200

Fax: (08) 8558 2022

Email: [council@yankalilla.sa.gov.au](mailto:council@yankalilla.sa.gov.au)

Office hours: Monday to Friday, 9.00am to 5.00pm (except public holidays)

## 10. Grievances

Any grievances in relation to this policy or its application should be forwarded in writing addressed to the Chief Executive Officer of Council.

## 11. Review of Risk Management Framework

This risk management framework and processes will be scheduled for review within 1 years from endorsement.

## 12. Document History

Date	Version	Council Resolution No.	Description of changes
August 2019	1.0	C19155	Adoption of Framework
March 2024	2.0	C24069	Review of Framework. Significant content amendments

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

### 13. Appendices

#### Appendix A: Definitions

<b>Assurance</b>	A process that provides a level of confidence that objectives will be achieved within an acceptable level of risk
<b>Consequence</b>	The outcome of an event expressed qualitatively or quantitatively, being a loss, injury, disadvantage or gain. There may be a range of possible outcomes associated with an event.
<b>Control</b>	An action that modifies risks and increases the likelihood that objectives and goals of an organisation will be achieved.
<b>Enterprise Risk Management</b>	The process that is applied in strategy setting and decision making throughout the organisation to identify, evaluate and manage potential risks that are likely to impact on achievement of objectives, set risk appetite and tolerance and manage risk within those parameters, and to provide reasonable assurance regarding the achievement of the organisation's objectives.
<b>Event</b>	Occurrence of a particular set of circumstances
<b>Exposure/Rating</b>	The risk exposure (also referred to as risk rating) is a qualitative value of the sum of the consequence of an event multiplied by the likelihood of that event occurring
<b>External Context</b>	External environment in which the organisation seeks to achieve its objectives
<b>Frequency</b>	A measure of the rate of occurrence of an event expressed as the number of occurrences of their event in a given time.
<b>Internal Audit</b>	An independent, objective assurance activity that uses a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control and governance processes.
<b>Internal Context</b>	Internal environment in which the organisation seeks to achieve its objectives
<b>Likelihood</b>	Chance of something happening
<b>Monitor</b>	To check, supervise, observe critically or record the progress of an activity, action or system on a regular basis in order to identify change.
<b>Reasonable assurance</b>	The concept that enterprise risk management, no matter how well designed and operated, cannot guarantee that an entity's objectives will be met. This is because of inherent limitations in all Risk Management Frameworks.
<b>Risk Analysis</b>	A systematic use of available information to determine how often specified events may occur and the magnitude of their consequences.
<b>Risk Appetite</b>	Is the amount of risk an organisation is prepared to accept in pursuit of its objectives
<b>Risk Assessment</b>	An overall process of risk identification, risk analysis and risk evaluation

Risk Management Framework		Version 2.0	
<i>The electronic version held on ERDMS is the controlled version of this document.</i>			
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025
<b>Warning:</b>	This document is uncontrolled when printed.		

<b>Risk Culture</b>	Risk culture refers to the behaviours that lead to how every person thinks about and manages risks,
<b>Risk Evaluation</b>	The process used to determine risk management priorities by comparing the level of risk against predetermined standards, target risk levels or other criteria.
<b>Risk Management</b>	Coordinated activities to direct and control an organisation with regard to risk.
<b>Risk Management Framework</b>	Set of components that provide the foundations and organisational arrangements for designing, implementing, monitoring, reviewing and continually improving risk management throughout the organisation.
<b>Risk Owner</b>	Staff member with the accountability and authority to manage a risk
<b>Risk Tolerance</b>	The acceptable variation in outcomes related to specific performance measures linked to objectives the organisation seeks to achieve
<b>Risk</b>	The effect of uncertainty on objectives
<b>Stakeholder</b>	Person or organisation that can affect, be affected by, or perceive themselves to be affected by, a decision or activity

Risk Management Framework <i>The electronic version held on ERDMS is the controlled version of this document.</i>		Version 2.0 /	
<b>Effective Date:</b>	August 2019	<b>Review Date:</b>	March 2025

**Appendix B: Consequence Tables**

**Qualitative Measures of Consequence (excluding Project Risks)**

RANK	Financial / Infrastructure	People	Reputation	Environmental	Legal / Regulatory / Policy	Service Delivery
<b>Insignificant</b>	Negligible Financial Loss (> \$20k) & damage to infrastructure. No real disruption to business	No Injury/First Aid only. No impact on morale	No Media or Political Attention. Some local complaints	Minor Instance of environmental damage. Can be reversed immediately	Immaterial legal, regulatory or internal policy failure. No penalty or liability	Insignificant interruption to a service – no impact to customers/business

RANK	Financial / Infrastructure	People	Reputation	Environmental	Legal / Regulatory / Policy	Service Delivery
<b>Minor</b>	Minor Financial Loss (\$20k – 100k). Minor damage to infrastructure. Minor financial disruption. Minor Variation to Budget for Financial Year	Minor Medical attention. Negligible impact on morale	Some Local Media or Political Attention. Community Concern – little adverse effect	Minor impact to environment. Can be reversed in the short term	Minor legal or regulatory/internal policy failure – resolved without penalty & minor liability exposure	Minor interruption to a service with minimal impact to customers/business

Risk Management Framework				Version 1.0
<i>The electronic version held on ERDMS is the controlled version of this document.</i>				
<b>Effective Date:</b>	March 2024	<b>Review Date:</b>	March 2028	
<b>Warning:</b>	This document is uncontrolled when printed.			

District Council of Yankalilla  
Risk Management Framework

RANK	Financial / Infrastructure	People	Reputation	Environmental	Legal / Regulatory / Policy	Service Delivery
<b>Moderate</b>	Moderate Financial Loss (\$100k - \$400k) and damage to infrastructure. Moderate impact to business operations. May impact beyond current financial period	Significant Injury requiring medical attention. Short Term effect on morale and business	Significant Media Attention. Significant Public interest. Potential for adverse local media or potential attention	Moderate impact to environment. Localised damage that has potential to spread and reversed with intensive efforts	A repeated legal, regulatory or internal policy failure. Resulting in a penalty and potential liability exposure	Moderate Interruption to service delivery. Customer impact up to 48 hrs. Partial BCP action may be needed

RANK	Financial / Infrastructure	People	Reputation	Environmental	Legal / Regulatory / Policy	Service Delivery
<b>Major</b>	Major Financial Loss (\$400k - \$1m). Major damage or loss of infrastructure. Major impact on Business Operations. Multiple financial year impact.	Serious Long-Term Injury. Temporary disablement. Significant impact on morale and business	Regional or State-wide media Attention. Public interest. Long term effect on reputation	Severe Loss of environmental amenity, Danger of continuing environmental damage.	Systematic legal, regulatory or internal policy failure. Major penalty requiring a full review. Significant liability exposure	Major interruption to service delivery, Customer impact > 7 days. Component of BCP action may be needed.

District Council of Yankalilla  
Risk Management Framework

District Council  
of Yankalilla

Consequence Table for Project Risks

Rank	Cost	Schedule	Performance	Reputation	Safety
Insignificant	< 2.5% of remaining Project Budget	< 2.5% of remaining Project Schedule	Would cause the delivered capability to be functionally fit for all desired missions or tasks, but there may be some qualification to the level to which it would perform non-critical elements of the mission or task. Few such qualifications would exist.	Little community interest, low profile, no news items	Minor injuries not requiring first aid treatment, or near miss
Minor	2.5-10% of remaining Project Budget	2.5-10% of remaining Project Schedule	Would cause the delivered capability to be functionally fit for all desired missions or tasks, but there would be some qualification to the level to which it would perform non-critical elements of the mission or task. Several such qualifications would exist.	Low impact, some passing interest, low news profile	Minor Medical attention. Negligible impact on morale
Moderate	10-14% of remaining Project Budget	10-14% of remaining Project Schedule	Would cause the delivered capability to be partly functionally fit for purpose (i.e. degraded ability to perform all desired missions or tasks; however, there are known workarounds). There would be some qualification to the level to which it would perform (e.g. due to issues of relationships, concurrency, etc). Several such qualifications would exist.	Moderate impact, moderate public interest, public embarrassment, moderate news profile	Significant Injury requiring medical attention. Short Term effect on morale and business
Major	15-19% of remaining Project Budget	15-19% of remaining Project Schedule	Would cause the delivered capability to be only partly functionally fit for purpose (i.e. degraded ability to perform some core missions or essential tasks or unable to perform non-core missions or tasks and there are no known workarounds).	Sustained public interest, high negative news profile, Premier/Cabinet publicly involved, third party action	Serious Long-Term Injury. Temporary disablement. Significant impact on morale and business

Risk Management Framework				Version 1.0

Appendix C: Likelihood Table

Rating	Likelihood	Explanation – Operations	Explanation – Projects/ Business Case	FREQUENCY/EXPLANATION
<b>E</b>	<b>Almost Certain</b>	It is <b>expected to occur</b> again, immediately or within a short period – likely to occur most weeks or months.	Could be expected to occur more than once during the study or project delivery	Expected to occur in most circumstances Expected to occur at times of normal operations (daily - > 99% probability of occurrence)
<b>D</b>	<b>Likely</b>	<b>Will probably occur</b> in most circumstances – several times a year.	Could easily be incurred and has generally occurred in similar studies or projects.	Probably will occur Will occur at some stage based on previous incidents (once per month – 50-99% probability of occurrence)
<b>C</b>	<b>Possible</b>	<b>Might occur at some time</b> - within a one – two-year period.	Incurred in a minority of similar studies or projects	Moderate probability of an incident Not expected to occur but could under specific circumstances (once per year 15-50% probability of occurrence)
<b>B</b>	<b>Unlikely</b>	<b>Could occur at some time</b> - in a two - five-year time frame.	Known to happen, but only rarely.	Low probability of an incident Conceivable but not likely to occur under normal operations (once per 5 years – 1-15% probability of occurrence)
<b>A</b>	<b>Rare</b>	<b>May occur only in exceptional circumstances.</b> Could be incurred in a 5-30-year timeframe.	Has not occurred in similar studies or projects. Conceivable but in extreme circumstances.	Extremely low probability. Only occurs in exceptional circumstances (once per decade - <1% probability of occurrence)

**Appendix E: Detailed Risk Areas**

Risk Area	Additional comments (if necessary)
Aerodromes	N/A
Aged Care	Commonwealth Home Support Program (CHSP) only
Animal Management	Dog and cat management, control of feral/pest animals
Arts & Culture	May include performing arts, (e.g. theatre productions) but does not include events – refer Event Management
Caravan Parks / RV Facilities	
Cemeteries/Crematoria	
Child Care	N/A
Coastal & Inland Waterways	Includes: Beachfront, Boat Ramps; Jetties
Community Development	
Land & Buildings	Includes: Building Safety; Hire of Facilities; Leasing Arrangements
Economic Development	
Emergency Management	Includes BCP, workplace emergencies, community emergencies
Event Management	Includes events organised by District Council of Yankalilla and third-party events on District Council of Yankalilla land
Financial Management	Borrowings and other financial arrangements, debtors, creditors, rates and other revenue
Governance	Includes: special committees; Council members
HACC (Home and Community Care)	Includes: Home Maintenance and independent living support
Health – Communicable disease	Including pandemic
Health - Inspections	Food and other health inspections (proactive and reactive)
Health - Provision of clinical services	e.g. Immunisation
Human Resources	Includes recruitment and retention
Information Technology	Including IT infrastructure, cyber security and data protection
Library Services	Including home library, mobile library etc.
Planning & Development	Includes: Planning Development & Infrastructure Act, issues arising from past development approvals, certification & inspections
Playgrounds/Outdoor Gym Equipment	includes nature play
Procurement, Contracts, Tenders	also covers contract/contractor management
Rail Interfaces	N/A

Risk Management Framework		Version 1.0

<b>Effective Date:</b>	March 2024	<b>Review Date:</b>	March 2028
<b>Warning:</b>	This document is uncontrolled when printed.		

Regulatory	Includes: parking enforcement and fire prevention
Roads & Footpaths	Roads & footpath management
Smart Technology	Includes: Drones; driverless vehicles; CCTV; electric vehicle charging stations
Sport/Recreation/Leisure	Includes Leisure facilities/services; recreational reserves - sport & non-sport
Swimming Pools	Does not include jetty pools or swimming enclosures – refer coastal and inland waterways
Tree Management	
Tourism	Tourism - visitor centre, information bays
Volunteers	
Waste Management	Includes: rubbish collection, recycling and waste transfer stations
Water Management	Includes: CWMS, drainage, stormwater management and recycled water
