

2024-2025 DRAFT ANNUAL BUSINESS PLAN & BUDGET

INCLUDING DRAFT LONG-TERM
FINANCIAL PLAN 2024-2034

District Council of
YANKALILLA

ACKNOWLEDGEMENT OF COUNTRY

We acknowledge the traditional custodians of the land and waters in the area now known as the District Council of Yankalilla. We pay our respects to the Elders past, present and emerging.

We honour the deep spiritual relationships with country and stories that have developed over tens of thousands of years.

We recognise that this rich cultural heritage is a living culture and remains important today.

ABOUT THIS REPORT

Welcome to the District Council of Yankalilla's draft Annual Business Plan & Budget for 2024-25, including the draft Long-Term Financial Plan for the 10 years 2024-2034.

This comprehensive report serves as a roadmap for the upcoming financial year, outlining Council's priorities, objectives, and financial allocations to meet the needs of our community.

You will find a detailed overview of our strategic initiatives, key projects and budget allocations aimed at advancing our Vision 2030.

We invite you to explore the contents of this document to gain insight into Council's priorities and the investments being made for the betterment of our community to address the challenges and opportunities facing our district.

As we embark on 2024-25, we recognise the importance of collaboration and partnership in achieving our shared goals. We value the input and feedback of our community and encourage active participation in shaping the future of our district.

Over the coming months, we will be working on developing the next chapter of the Strategic Plan. We invite you to join in on those conversations focusing on long-term success for a vibrant, inclusive and sustainable district for generations to come.

THE YEAR AHEAD

This year's Annual Business Planning and Budget process was heavily influenced by the early identification of projects required to be carried forward into future years and staged for success. This approach ensures our financial sustainability now and in the future, without compromising essential services.

The economic environment, with CPI forecast in December 2023 at 4.4%, has improved in comparison to the large CPI increase seen in June 2023. The current body of Elected Members have made a strong commitment to financial

Focusing on long-term success

sustainability and determining what our district looks like following the 'once in a generation' investment in community assets. Our Long-Term Financial Plan, a key tool to assist Council in making well informed, transparent and sound financial decisions, has been updated to reflect this commitment to prepare our district for the future.

We're presenting this plan in draft form because we value your input. Your thoughts and ideas will contribute to shaping the final version.

THE YEAR AHEAD **continued**

Your feedback is important in ensuring that our plan accurately reflects the needs of our community. The final budget will be adjusted based on the input we receive.

As we work on preparing a new Strategic Plan Four Year Focus, we're continuing to keep our focus on the key priorities identified. We'll be concentrating on setting our district up for long-term financial sustainability by delivering essential services, reducing debt and maintaining and upgrading key infrastructure.

Our community's needs are at the heart of our decisions and we're committed to working with you to meet them. Over the next six months, we'll be closely engaging with the community to work out what Council's work plan looks like to deliver services and activities that reflect your priorities. This is the goal of the second phase of working towards achieving our Vision 2030.

Changes to the draft Annual Business Plan & Budget will be reflected in the final document, available on our website. Hard copies of the draft plan are available at the Council Office upon request, during the Community Consultation period. The final plan will be available after Elected Member adoption, planned for late June.

A WORD FROM THE MAYOR

The Mayors address will be provided following the completion of Community Engagement.

DARRYL HOUSTON
MAYOR

District Council of
YANKALILLA

A WORD FROM THE CEO

I am pleased to present the draft 2024-25 Annual Business Plan & Budget, including the draft Long-Term Financial Plan, for the community's consideration. This comprehensive report serves as a roadmap for the upcoming financial year, delineating Council's priorities, objectives, and the financial allocations aimed to meet the needs of our community.

In 2020, the Council adopted the District Council of Yankalilla Strategic Plan: Vision 2030 alongside the Four-Year Focus 2020-24. These strategic management documents, in conjunction with Council's Long-Term Financial Plan, chart the course for Council in working towards the 2030 horizon. Each year, an Annual Business Plan is adopted, outlining the budget and funding sources for the year ahead.

This year's Business Planning and Budget process has been significantly influenced by the early identification of projects earmarked for future years. Drawing from the lessons learned during the 2023-24 budget preparation process, where we went 'back to basics', we have now applied this approach to our capital program. This recalibration is imperative following the substantial injection of grant funding in our district, which led to the delivery of remarkable assets for the community and visitors to enjoy.

Following the completion of the large capital projects, our focus extends beyond 2024 as we concentrate our efforts on laying the groundwork for long-term financial sustainability. This entails delivering essential services, reducing debt, and maintaining and upgrading infrastructure. While this approach may appear drastic at present, its purpose is to ensure our financial resilience both now and in the future, without compromising essential services.

NATHAN CUNNINGHAM
CHIEF EXECUTIVE OFFICER

District Council of
YANKALILLA

OUR COUNCIL

The District Council of Yankalilla comprises of nine (9) Ward Councillors (no Area Councillors) and the Chairman (Mayor) is the principal member of Council.

LIGHT WARD

Represented by five (5) Councillors

FIELD WARD

Represented by four (4) Councillors

ELECTED COUNCIL MEMBERS

CONSULTATION & FEEDBACK

25 April 2024 - 21 May 2024

Focussing on long-term success - drop-in style Q&A conversations

SECOND VALLEY HALL

TUES 14 MAY, 4 - 7PM

Community members are invited to have one-on-one conversations with Council's Executive Leadership Team about the plans for the year ahead proposed in the draft 2024-25 ABP & Budget and setting the foundation for long-term success as part of the review of the DCY Strategic Plan: Vision 2030.

Public Community Meeting

COUNCIL CHAMBERS - FRI 17 MAY,

4 - 5.30PM

Join us at our upcoming 'Public Community Meeting,' where you can learn more about our proposed plans for the year ahead and share your thoughts with us and fellow community members.

The Year Ahead - an online conversation

ZOOM - MONDAY 20 MAY, 5.30 - 7PM

For those who are unable to make it to the face-to-face sessions, we are supplying an opportunity to connect with us online at 'The Year Ahead – an online community conversation' held via Zoom.

Online, post or email

We are gathering insights and feedback via the Council's online engagement hub Your Say Yankalilla at yoursayyankalilla.com.au and via post to our Director Corporate Services, District Council of Yankalilla, PO Box 9, Yankalilla SA 5203 and via email to consultation@yankalilla.sa.gov.au.

OUR FRAMEWORK FOR DELIVERY

The Strategic Plan is the primary document that directs the planning of Council. The suite of Asset Management Plans gives guidance to Council on how to maintain its assets. These combined plans are used to

formulate the Long-Term Financial Plan through which Council manages its resources and its sustainability. The Annual Business Plan & Budget is the detailed implementation of these plans.

OUR VISION 2030

The 2024-25 Annual Business Plan & Budget marks the end of our first four years of the 2030 Vision and triggers the beginning of the second phase of working towards achieving our 2030 Vision.

STRATEGIC VISION: 2030

The District Council of Yankalilla Strategic Plan continues to be regarded as our most important document which guides the key direction and decisions.

The Strategic 2030 Vision consolidates what we heard from the community between October 2019 to November 2020, following the biggest consultation undertaking ever performed by Council. The 2030 Vision continues to guide Council's direction as we near 2030.

OUR ENVIRONMENT

OUR COMMUNITY

OUR ECONOMY

OUR INFRASTRUCTURE

OUR LEADERSHIP

You're always welcome at
OUR PLACE.
Fleurieu Coast, Made by nature

Vision 2030

The long term vision will be guided by five themes. The first four years will be shaped by 12 community priorities obtained through consultation.

This is the story of the future of our district as told by over 1,000 participants during an unprecedented community engagement program

1. OUR ENVIRONMENT

Our Environment is a tapestry of living landscapes: We proudly live in harmony with the district's vast ecological diversity; its marine parks, conservation parks, freshwater corridors and coastal habitats. Our self-sufficient communities are powered by nature's elements and we collaborate across the region to build our collective resilience to the impacts of climate change and to re-purpose and reduce our waste.

Priorities:

- 1. Protecting our natural environment and rural lifestyle
- 2. Living sustainably
- 3. Ensuring sensitive development

2. OUR COMMUNITY

Our Community is a connected network of townships and rural settlements: We are dotted with unique communities; some discreetly nestled within a landscape of unspoilt natural resources, others brimming with services and facilities that give visitors a reason and a place to stay, enable our most experienced residents to age in place, provide the perfect neighbourhoods to raise a family, propel graduates in to meaningful employment and encourage everyone to connect and celebrate through recreation, sport, culture and the arts

Priorities:

- 4. Providing for our children, young people and families
- 5. Accessing health, emergency and community services
- 6. Building community connections

5. OUR LEADERSHIP

Our Leadership is by example: We listen and learn from our community's vast knowledge, skills and experience and we advocate with courage and understanding. We proactively engage with change for the benefit of our community.

Priorities:

- 12. Demonstrating good governance

4. OUR INFRASTRUCTURE

Our Infrastructure is taking us places: We are safely and conveniently at the doorstep to everywhere; to townships, to trails, to the port on the ferry, to the region on road, to the city on train, to the world online.

Priorities:

- 10. Getting around
- 11. Delivering township infrastructure

3. OUR ECONOMY

Our Economy is a diverse producer of low impact high quality goods, services and experiences. We have robust and responsible employment sectors that contribute equally to the district's liveability as they do its economy. Our industries stimulate vibrant townships, protect high value and high amenity rural landscapes, invest in quality infrastructure and pursue innovation for economic growth that reinforces our district as a place of choice for residents, visitors and business.

Priorities:

- 7. Developing tourism opportunities for economic benefit
- 8. Supporting agribusiness and food production
- 9. Increasing job and business opportunities

OUR VISION 2030

Council's Strategic Plan was designed to provide a visual demonstration of Council's strategic directions over a 10-year period and 4-year horizon, avoiding action level or site-specific proposals.

As 2024 draws to a close, so too does the first phase of the Strategic 2030 Vision. We now build on the success of the last 4 years and move into the second phase of planning and delivery.

DELIVERING THE SECOND PHASE

As the second phase begins, we continue to make plans and decisions with the 2030 Vision firmly in our sights. The next four to five years will be guided by the five themes as we discover the next priority areas with community.

Upon finalisation of Community Engagement, a plan for '2030 Vision: Phase 2' will be presented to the community. This will help inform priority funding projects through to 2030.

CAPITAL PROJECTS

Last year we took our operating expenditure back to basics and this year we take the next step to return our capital expenditure to support long-term success.

Following a strategic financial decision in early 2024, a large portion of the new work forecast for 2023-24 was paused and deferred to 2024-25 with this staging designed to ensure successful delivery and a sustainable financial trajectory. This means that much of the Capital Projects proposed for 2024-25 were previously approved by Council (and consulted on ahead of the 2023-24 Annual Business Plan & Budget).

In 2023-24, Council planned to deliver to \$5.73M in new and renewal capital projects, and \$522K in operating projects on top of delivery of the remainder of the 'once in a generation' community assets (Normanville Foreshore, Normanville Surf Life Saving Club and Café / Kiosk, BIG4 Normanville Jetty Holiday Park Cabins project and the Yankalilla Library).

Where projects from 2023-24 have been reallocated to be delivered in 2024-25, the information that follows has been informed by the 2023-24 Annual Business Plan.

CAPITAL PROJECTS

Blacker Road Bridge

The Blacker Road Bridge serves as the sole access point to several farming properties along Blacker Road, which is designated as a no-through road. To maintain this crucial access, plans are underway to replace the existing 5m span timber bridge and stone headwall. The proposed construction includes the installation of a new bridge composed of a precast box culvert and gabion rock headwall.

Additionally, there will be a realignment and widening of the bridge approach to meet with current Australian standards. This replacement initiative is imperative to address the deteriorating infrastructure and ensure continued access to the properties.

Finnis Vale Drive

Finnis Vale Drive provides access to the township of Second Valley and is identified in the Southern and Hills Local Government Associations 2030 Regional Transport Plan as a regionally significant tourist and community route.

The existing road assets are nearing end of life with areas of significant pavement deformation, cracking and limited existing stormwater management infrastructure, resulting in occurrences of road stormwater runoff discharging uncontrolled into private property.

Council will tender for an engineering consultant(s) to complete road pavement and stormwater engineering design, ensuring its readiness to be nominated for Special Local Roads Program funding with the support of the Southern and Hills Local Government Association.

CAPITAL PROJECTS

Range Road Renewal – Tapanappa Road to Parawa Road

Range Road is one of our most significant freight and tourism routes and has been identified as the highest priority project for the region that was eligible for funding in 2023-24. Over the past few years, Council has conducted extensive pavement maintenance work on this stretch of road.

With the road pavement now reaching the end of its useful life, Council was successful in its application to secure a special local roads funding grant of \$800K. This funding, in addition to our own \$400K Council contribution will see the renewal of the road surface.

This renewal is necessary to ensure that the Southern Freight Corridor remains in satisfactory condition, guaranteeing the continued safety and efficiency of this vital transportation route.

Following a funding extension this project will be completed by the end of the 2024 calendar year.

CAPITAL PROJECTS

Footpath Renewal Program

Our Council is committed to providing safe and convenient footpath networks throughout our district. Well-maintained footpaths improve accessibility for everyone, promoting social inclusion and creating a more equitable environment. A safer and more accessible footpath network can also increase foot traffic, which benefits local businesses and supports the local economy. Additionally, a well-maintained footpath network can improve the overall appearance of a community, contributing to residents' satisfaction or boosting civic pride within their neighbourhood.

In 2023-24 Council delivered a portion of the footpath repair program that will ensure all damaged footpath segments are repaired to a satisfactory condition. This work will continue throughout 2024-25 and into 2025-26 to ensure we can continue to deliver these much-needed positive community outcomes.

Township Road Sealing Program

Following the completion of construction work on Scenic Way for road and drainage, our township road sealing program now progresses into the technical design phase for the roadway and drainage of Petrel Close Carrickalinga, Gulf Close Carrickalinga, and Bernard Street Normanville. By the end of the 2023-24 Financial year, the 30% design for Petrel and Gulf Close Carrickalinga, as well as Bernard Street in Normanville, have been accomplished, while the remaining technical design work is scheduled to be finalised in the upcoming financial year – 2024-25.

This program is strategically aimed at enhancing safety, accessibility, supporting property value growth, reducing maintenance costs and fostering environmental benefits.

CAPITAL PROJECTS

Bridges Safety Upgrade (Guard rails)

Following an audit in 2019, it was identified that several of our bridges require the installation of guard rails in order to meet relevant standards and to provide an appropriate level of service. Guard rails are essential for bridges to ensure the safety of all road users, including pedestrians and cyclists. We have identified the installation of guard rails for Back Valley Road, Bollaparudda Creek, Rogers Road and Three Bridges Road.

Cygnets Place Road Renewal and Stormwater Management

The road seal and pavement at Cygnets Place, Rapid Bay has reached its technical end of life. To ensure the safety of drivers, cyclists and pedestrians, we are renewing this road asset. Potholes, cracks and other defects in the road surface or drainage can cause accidents, particularly in adverse weather conditions.

By renewing assets at the end of their useful life, we can avoid more costly repairs and replacement projects in the future. A design for the road pavement and stormwater infrastructure was completed in 2022-23. Funds were allocated in 2023-24 and deferred so the project is now ready for construction as part of the 2024-25 Annual Business Plan & Budget.

Unsealed and Sealed Road Renewals

Continuation of our annual re-sheeting and road sealing programs remains a key priority for Council. We conduct regular condition inspections of our roads, which informs our re-sheeting and sealing programs. In the upcoming year, we plan to attend to approximately 14km of individual unsealed road segments. Additionally, we will identify individual road segments for our annual township sealing program.

NEW CAPITAL

Council intends to implement the New Capital Projects detailed above. The following funding has been allocated within the budget:

Capital Renewal / Replacement Projects	Carried forward from 2023-24	New funding 2024-25	Proposed future commitment	Grant / external funding opportunity
Blacker Road Bridge Replacement	\$ 460,619			141,534
Cygnnet Place - Road Renewal and Stormwater Management	\$ 350,000			Yes - amount TBA
Finniss Vale Drive - Second Valley/ Randalsea Design	\$ 45,000			Yes - amount TBA
Footpath Renewal Program	\$ 75,000		\$ 75,000	
Large Plant Renewal	\$ 545,089			
Range Road Renewal - Tapanappa Road to Parawa Road	\$ 1,192,000			800,000
Sealed Road Renewal	\$ 330,000			
Shoulder Maintenance	\$ 60,000			
Unsealed Road Renewal	\$ 600,000			
Hazardous area lighting and refit			\$ 20,000	
Security/CCTV upgrades			\$ 30,000	
Tjilbruke marker site project			\$ 25,000	
TOTAL	\$ 3,657,708	\$ -	\$ 150,000	

RENEWAL CAPITAL

Council intends to implement the Renewal Capital Projects detailed above. The following funding has been allocated within the budget:

Capital New / Upgrade Projects	Carried forward from 2023-24	New funding 2024-25	Proposed future commitment	Grant / external funding opportunity
Bridges Safety Upgrade - Guard fence	\$ 58,900			
ERP System upgrade	\$ 150,000			
New Plant Purchases	\$ 35,112			
Pioneer "wall" at Bullaparinga Cemetery	\$ 25,000			
Carrickalinga to Normanville multi-use path (Stage 3)			\$ 158,875	
TOTAL	\$ 269,012	\$ -	\$ 158,875	

OPERATING PROJECTS

The 2024-25 Annual Business Plan & Budget includes several projects that are not an investment in capital, but which will lead to more economic and efficient outcomes, provide additional services or assist in the maintenance of the beautiful region we live in.

The proposed projects for this period are identified in more detail on the following pages.

OPERATING PROJECTS

Cultural Projects

We continue to form the foundation of a Reconciliation Action Plan, through relationship building and cultural projects, to raise cultural awareness within the organisation and across the community. Reconciliation Action Plans are based on the core pillars of relationships, respect and opportunities.

Arts and Creativity Program

The Arts and Creativity Program, which has been running successfully for the past 4 years, continues to provide the link between Council and the large number of vibrant artists and creatives who live in our district. The Program, led by the driven and skilled volunteers as part of Council's Arts and Culture Advisory Group, provides recommendations to Council on a range of matters including potential grants and a vision for public art in our district.

Community Grant Program

The much-loved Community Grant Program provides support to our highly valued and active community groups who would otherwise struggle to find appropriate grant programs to fund their programs and/or activities benefiting the broader community.

This annual program continues to provide opportunities for community groups to apply for small grant contributions that can be matched by themselves or third parties enabling them to reach their goals.

OPERATING PROJECTS

Major Events and Festivals Sponsorship Program

Our Major Events and Festivals sponsorship program continues to support community events celebrating local culture and heritage, which can drive economic activity and community connection. Event organisers can apply for sponsorship, subject to panel assessment, to help elevate their events and promote best practices in event delivery.

In the past, Council has supported a variety of community led events and festivals including the Normanville New Year's Eve Pageant, Heritage Fleurieu Coast, Festival Fleurieu, Yankalilla Classic Motorshow and Cut It at the Cape.

OPERATING PROJECTS

Economic Development Strategy

In 2020 an Economic Development Strategy 2020-2025 was endorsed by Council. Implementation of this strategy continues and in 2024-25 includes:

- Working with partners to establish a program of support initiatives and training that build business capacity and resilience
- Supporting agricultural sustainability and diversification
- Embracing geotourism to enhance our natural and cultural heritage experiences and facilities
- Supporting career pathway development and improved access to tertiary education and VET alternatives through the Regional Study Hub
- Engaging with industry groups and the business community to develop the next version of Council's economic development strategy

Myponga Memorial Community Centre & Yankalilla Memorial Park Sport Facilities

Council has long recognised the vital role played by the Myponga Memorial Community Centre & Yankalilla Memorial Park Sport Facilities in bridging a significant gap in local sport and recreation and creating community. Whilst Council's priority is to invest in infrastructure that is Council owned and managed, Council continues to provide resources and a place to connect for a large portion of our community.

OPERATING PROJECTS

Tree Trimming Program

The continuation of the tree trimming program implemented in 2023-24 will ensure we clear safe road networks, to allow easy access for both our community and visiting road users throughout 2024-25.

As a Council, we also have an environmental obligation to look after our tree network, particularly along road corridors. Trees, although not infrastructure themselves, have a huge impact on both the condition and usability of our infrastructure.

Bridge Maintenance

Maintaining critical transport infrastructure includes performing Bridge Maintenance. This year's focus includes corrosion protection and abutment works on James Track, Parawa Road North and Culvert Repairs on Parawa Road South.

Periodic condition inspections and load tests of aging timber bridges ensures critical transport infrastructure is in safe and serviceable condition. A previous Engineering assessment undertaken in December 2020 recommended a biennial assessment on the Myponga Beach Bridge. This project will provide an inspection and planning options for the bridge's future.

On Demand Transport

The Commonwealth Home Service Program (CHSP) On Demand Transport service celebrates its 4th year of providing a service to our community.

The On Demand Transport program provides an option for the Community to attend appointments utilising the CHSP vehicles if they are not eligible to use them under 'My Aged Care'. This helps to bridge the lack of public transport in the area.

OPERATING PROJECTS

Strategic Plan – Next Four-Year Focus

Council entered the second phase of planning for Our VISION 2030 Strategic Plan in late 2023-24. The majority of the community engagement, consolidation and reporting will be developed in early 2024-25.

Previously, external resourcing has been utilised to drive the process with administration, Elected Members and the community however, administration are driving the process for the next phase through Elected Member and community conversations. All themes are relevant as they are part of the VISION 2030. The next strategic plan will still fall inside the 10-year vision period and will cover the same themes, unless the community advises that these themes have shifted.

Conservation Made by Nature

Key priorities from the Southern Fleurieu Coastal Action Plan will be implemented in the ‘Conservation Made by Nature’ project. It will reduce environmental threats and improve the biodiversity and conservation of our coastal assets with community education and participation. Matching funding will be provided through Green Adelaide’s Coast and Seas Program and the Hills and Fleurieu Landscape Board Coast and Marine Program.

Fleurieu Coast Community Nursery and Community Revegetation Program

Coastal management and climate change adaptation continue to be a strategic priority and Council will continue to support regional environment partnerships.

The Fleurieu Coast Community Nursery and Community Revegetation Program will work with the Fleurieu Environment Centre and the Foundation for National Parks and Wildlife to provide local native seedlings for Council and community revegetation projects.

OPERATING PROJECTS -TABLE

Council intends to implement the Operating Projects detailed above. The following funding has been allocated within the budget:

Operating Projects	Carried forward from 2023-24	New funding 2024-25	Proposed future commitment	Grant / external funding opportunity
Bridge Maintenance	\$ 109,800			
Cultural projects - working towards reconciliation action plan	\$ 4,500			Yes - amount TBA
Former Wesleyan Cemetery site clean up works	\$ 10,000			
Free leisure equipment hire - maintenance	\$ 3,600			
Strategic Plan - next 4-year focus	\$ 5,000			
Tree trimming program	\$ 35,000		\$ 45,000	
Coastal Conservation Made by Nature		\$ 30,000		Yes - amount TBA
Community, Arts and Creativity Program		\$ 15,000		
Community Grants Program		\$ 16,500		
Economic Development Strategy implementation		\$ 27,500		
Fleurieu Coast Community Nursery and Community Revegetation Program		\$ 22,500		Yes - amount TBA
Major event & festival sponsorship		\$ 27,000		
Myponga Memorial Community Centre & Yankalilla Memorial Park Sport Facilities		\$ 50,000		
On Demand Transport - CHSP		\$ 15,000		Yes - fully funded
The War on Waste - LEAPing away from ag plastics			\$ 9,000	
Cemetery Plot Space			\$ 21,476	
TOTAL	\$ 167,900	\$ 203,500	\$ 75,476	

BUDGET SUMMARY

Impacts on 2024-25 budget

Following the approach in 2023-24 by getting back to basics and understanding what a 'business-as-usual' budget looked like, we now know even more about what is necessary to achieve and maintain Council's financial sustainability.

Following the completion of a 'once in a generation' major capital program, this budget takes a long-term view of what is financially possible for the district. The impact of this work will flow through our budget and our community for years to come as we enjoy the new facilities in our district.

The previous Long-Term Financial Plan 2023-2033 identified that Council would need to increase rates by 2% above inflation in 2024-25.

The updated Long-Term Financial Plan now identifies a need for rates to increase by the following % above inflation (CPI):

- 2024-25 = 2.0%
- 2025-26 = 1.5%
- 2026-27 = 1.1%

	2023-24 Current Year Forecast	2024-25 Draft Budget
Operating Budget		
Operating Revenue	\$18,238,981	\$18,472,515
Operating Expenses	\$19,013,680	\$19,381,040
Operating Surplus / (Deficit)	(\$774,699)	(\$908,525)
Capital Budget		
Expenditure on Renewal/Replacement Assets	\$1,734,935	\$3,657,708
Expenditure on New/Upgraded Assets	\$4,543,958	\$269,012
Total Expenditure on Capital	\$6,278,892	\$3,296,720

BUDGET SUMMARY

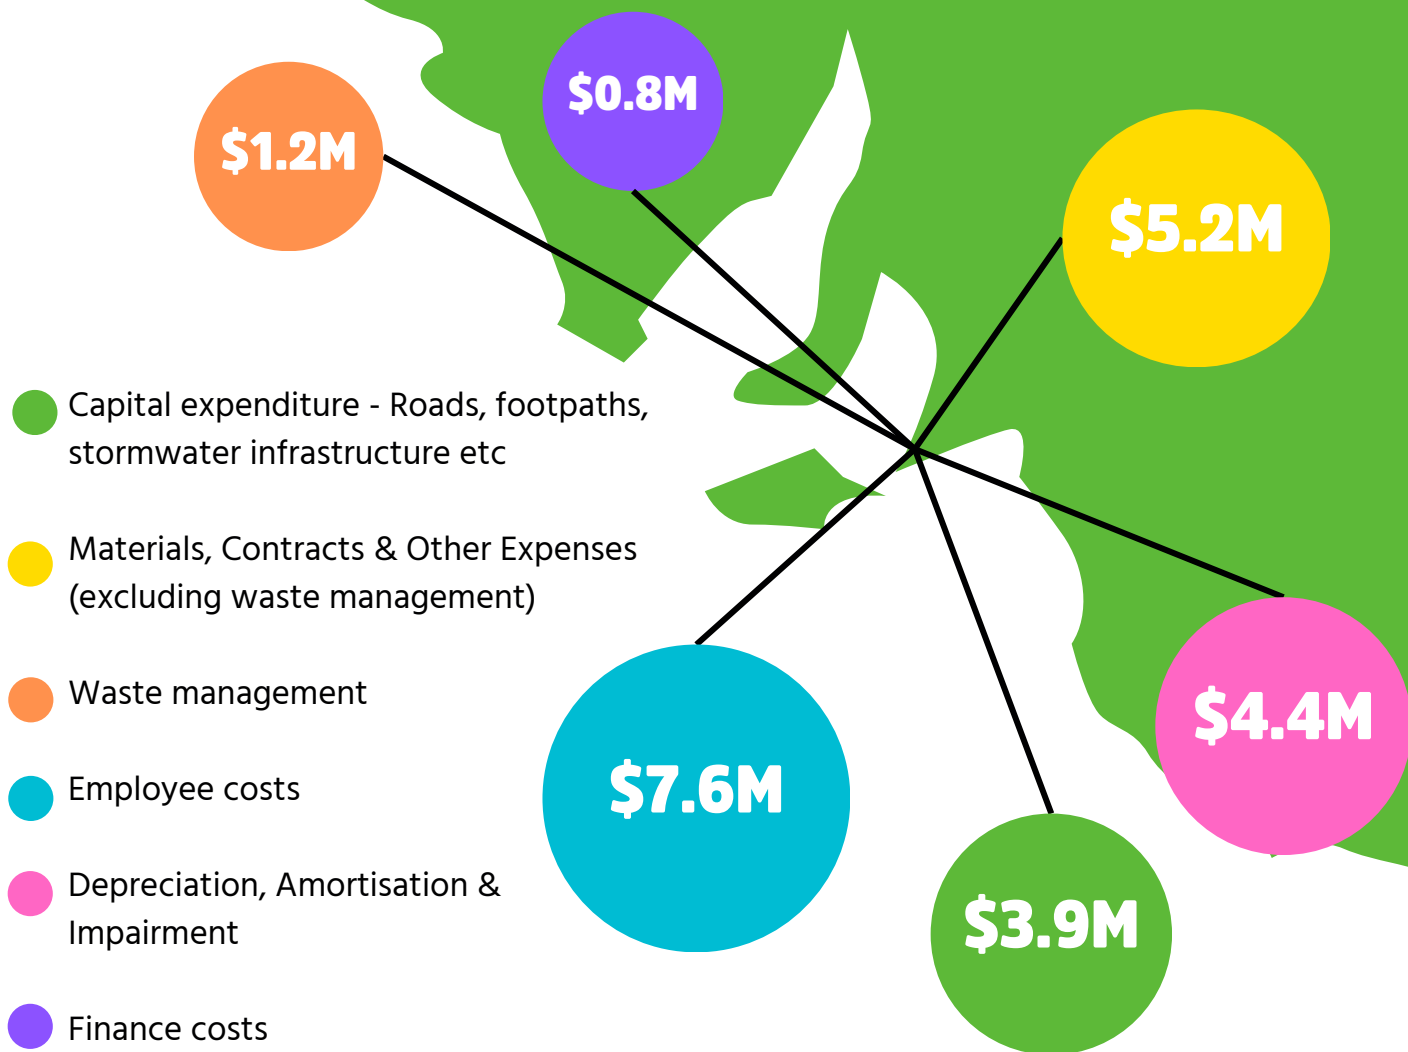

Financial indicators

A summary of the key financial indicators is supplied below. For more information, including detailed explanations and targets, refer to the Long-Term Financial Plan and Sustainability section of this document.

	Operating Surplus Ratio	Net Financial Liabilities Ratio	Asset Renewal Funding Ratio
2023-24 Current Year Forecast	-4.25	86.96%	50.48%
2024-25 Budget	-4.92%	85.73%	118.09%
2026-27 Forecast LTFP	-1.98%	80.70%	100%
2026-27 Forecast LTFP	-1.74%	77.96%	100%
2026-27 Forecast LTFP	0.21%	77.24%	100%
2027-28 Forecast LTFP	-0.13%	80.51%	100%

WHERE DOES THE MONEY COME FROM

WHERE DOES THE MONEY GET SPENT

	Dollars \$	Percentage %	Number of properties
2023-24 Expected Rates Income	\$13,338,722		5,742
Inflation - RBA Forecast CPI June 2024		3.6%	
Growth		0.1%	2
Sustainability		1.9%	
2024-25 Expected Rates Income	\$14,146,234	5.6%	5,745

Rates, Growth, Inflation and Financial Sustainability

Total general rates need to increase by inflation, growth and an amount to ensure Council remains in a financially sustainable position.

New properties pay additional rates, this is known as growth. The district has seen the same addition as the prior year, with 22 new properties. However, with the number of subdivisions and amalgamations the total number of rateable properties has only increased by 2.

The sustainability increase reflects increased costs due to:

- Where the nature of Council costs increase by more than consumer price index (CPI); and
- Where additional services and capital assets have been introduced.

The assumptions used in the preparation of this budget are provided in the table above.

Property Values and the Rate in the dollar

It is important to recognise that Council does not make any gains through increases in the value of properties.

Rates are calculated by multiplying the capital value of a property with a factor called the 'Rate in the Dollar', which is set by Council.

If Capital Values increase across the district, then the Rate in the Dollar is reduced to offset this.

Total rate revenue raised is proposed to increase by 5.6%.

On average, the cost of Rates for an existing ratepayer will increase by 4.9% or \$117 this year.

On average, this equates to an additional \$2.25 per week.

The minimum rate is \$1,100.

MEASURING PERFORMANCE

The Council measures its achievements and financial performance through:

- Regular financial reporting to Executives and Council
- Monthly performance report to Executives and Council within the Chief Executive Officer's Report
- Quarterly Strategic Plan Updates of progress to Council
- Annual review of the Long-Term Financial Plan
- Production of the Annual Report with audited financial statements
- Budget reviews in accordance with legislation
- Progress reports against the Annual Business Plan & Budget to Council within the Chief Executive Officer's Report
- Individual staff performance plans
- Monitoring and reporting customer request and complaint systems
- Regular reporting to the Audit and Risk Committee in accordance with the Audit and Risk Committee Terms of Reference
- Review and advice by the Audit and Risk Committee Independent Members, Christine Hahn and Dr Andrew Johnson
- Ad hoc reviews as required.

RATING POLICY

Council works hard to balance the need for Rates against the needs of the community for services. Council takes into consideration the effect of rates on all ratepayers and is mindful of maintaining the balance between economic and community development.

The Long-Term Financial Plan showed rates increasing in 2024-25 and 2025-26 increasing by the RBA's forecast inflation (CPI), plus 2% and 1.5% respectfully. The 2024-25 Budget has maintained this forecast position despite Adelaide CPI being higher than expected.

Land values

Council uses capital value as the basis for valuing land within the district. Council considers this method of valuing land the fairest way of distributing the rate responsibility across all ratepayers.

Capital Value

Section 151 of the Local Government Act 1999 identifies the value of land for the purpose of rating as capital value which includes all improvements. Council uses the services of the South Australian Valuer-General to establish the value and category of land within the Council area for rating purposes. Council's Rating Strategy provides detail on land valuations and valuations.

Notional Value

Certain properties may be eligible for a notional (concessional) value under the Valuation of Land Act 1971. This can relate to certain primary production land or where there is State Heritage recognition. A notional value is generally less than the capital value and therefore will result in reduced rates unless the minimum rate is applicable. The capital valuations of all properties within the district are provided by the Valuer-General each June.

RATING POLICY

continued

Rating categories

The District Council of Yankalilla has determined that in 2024-25 it will maintain the use of a differential rating system based on land use, with all properties within a category levied the same Rate in the Dollar.

The following major categories are used:

- Residential
- Commercial
- Industrial
- Primary Production
- Vacant Land
- Other

The rating structure for 2024-25 includes:

- the Rate in Dollar for Vacant Land is 135% of the Residential Rate in the Dollar
- primary Production Rate continues to be 100% of the Residential Rate

There are several different rating systems which Councils may adopt, making it difficult to compare one Council to another.

RATING POLICY

continued

Rebates

Council will grant rebates across the district based on statute and local policy. Council is required to provide mandatory rate rebates under the Local Government Act 1999. Council may also resolve to provide discretionary rate rebates under the Act.

Discretionary Rebates

Rebate - Primary Production 9%

Recognising the value of primary production to our region's economy and encouraging the continuation of farming in this district, all primary production properties with greater than 35 hectares, not owned by government bodies and not being valued on a notional basis, will be provided with a rebate of 9%.

Rebate - Capping 20%

Following a review of the impact of capping, the rebate for capping has been increased to 20%. This capping will be automatically applied to property owners where their rates charged on a given property has risen more than 20% provided:

- 1.The increase in valuation is not a result of development or capital works;
- 2.There has not been a change in the land use category attached to the land; and
- 3.Application of the rebate does not result in the amount payable falling below the minimum rate.

Back in 2022-23, a new policy regarding Rebate Capping was introduced and replaced the previous policy that included rebates for pensioners and those on Centrelink support and those who met specific qualifications. The new policy capped the increase in the rates charged on a given property at 15% percentage provided the same 3 points above were applicable.

Wirrina Water

Council continues to manage legacy water accounts in Wirrina that have not elected to transfer to SA Water. All monies collected must be passed on to SA Water. This is an administrative and financial burden for Council and conversations have commenced to resolve this legacy issue.

FINANCIAL DIFFICULTIES

Payment plans

Where Ratepayers are encountering short-term difficulty in making rate payments, they can approach Council to make arrangements to pay by instalments.

Financial hardship

Ratepayers who are suffering long-term hardship can apply through Council's Hardship Policy to make a long-term arrangement. Confidentiality is maintained.

Senior postponement

Seniors (holding a State Seniors card) can apply to Council to postpone payment of a proportion of rates on their principal place of residence.

STATEMENT ON EXPECTED RATE REVENUE

Please note: These figures represent a considered estimate of Expected Rate Revenue based on the most current information available at the time of going out to consultation on the DRAFT Annual Business Plan and Budget (ABP&B). This information is updated regularly and therefore these figures may be subject to confirmation at the time of actual adoption of the ABP&B.

Expected Rates Revenue				
	2023-24 (as adopted)	2024-25 (estimated)	Change	Comments
General Rates Revenue				
General Rates (existing properties)	\$13,659,197	\$14,345,493 (a)		
General Rates (new properties)	\$52,738	\$47,292 (b)		
General Rates (GROSS)	\$13,711,935	\$14,392,786 (c)		
Less: Mandatory Rebates	(\$47,445)	(\$48,433) (d)		
General Rates (NET)	\$13,664,490	\$14,344,353 (e)	5.0%	
	(e)=(c)+(d)			
Other Rates (inc. service charges)				
Regional Landscape Levy	\$330,788	\$377,454 (f)		The Regional Landscape Levy is a State tax, it is not retained by council.
Water supply	\$108,000	\$105,000 (n)		
	\$14,103,278	\$14,826,807		
Less: Discretionary Rebates	(\$350,768)	(\$198,072) (j)		
Expected Total Rates Revenue	\$13,421,722	\$14,251,280 (m)	6.2%	Excluding the Regional Landscape Levy and minus Mandatory & Discretionary Rebates.
	(m)=(a)+(g)+(h)+(i)+(j)+(k)+(l)			

Estimated growth in number of rateable properties				
Number of rateable properties	5,742 <i>Actual</i>	5,745 <i>Estimate</i>	(n)	0.1%
<p>*Growth* is defined in the regulations as where new properties have been created which has added rateable properties to council's ratepayer base. Growth can also increase the need and expenditure related to infrastructure, services and programs which support these properties and residents.</p>				

Estimated average General Rates per rateable property				
Average per rateable property	\$2,388	\$2,505 (o)		4.9%
	(o)=(c)/(n)			
<p>Councils use property valuations to calculate each rateable property's contribution to the required rate revenue total. Councils do not automatically receive more money because property values increase but this may alter how rates are apportioned (or divided) across each ratepayer (ie. some people may pay more or less rates, this is dependent on the change in value of their property relative to the overall valuation changes across the council area).</p> <p>The total General Rates paid by all rateable properties will equal the amount adopted in the budget.</p>				

Notes

(d) Councils are required under the Local Government Act to provide a rebate to qualifying properties under a number of categories:

Health Services - 100 per cent	Religious purposes - 100 per cent	Royal Zoological Society of SA - 100 per cent
Community Services - 75 per cent	Public Cemeteries - 100 per cent	Educational purposes - 75 per cent

The rates which are foregone via Mandatory Rebates are redistributed across the ratepayer base (ie. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate).

(e) Presented as required by the Local Government (Financial Management) Regulations 2011 reg 6(1)(ea)

Please Note: The percentage figure in (e) relates to the change in the total amount of General Rates revenue to be collected from all rateable properties, not from individual rateable properties (ie. individual rates will not necessarily change by this figure).

(f) Councils are required under the Landscape South Australia Act 2019 to collect the levy on all rateable properties on behalf of the State Government. The levy helps to fund the operations of regional landscape boards who have responsibility for the management of the State's natural resources.

(j) A council may grant a rebate of rates or service charges in a number of circumstances. The rates which are foregone via Discretionary Rebates are redistributed across the ratepayer base (ie. all other ratepayers are subsidising the rates contribution for those properties who receive the rebate).

(m) Expected Total Rates Revenue excludes other charges such as penalties for late payment and legal and other costs recovered.

(n) *Growth* as defined in the Local Government (Financial Management) Regulations 2011 reg 6(2)

STATEMENT ON EXPECTED RATE REVENUE

Please note: These figures represent a considered estimate of Expected Rate Revenue based on the most current information available at the time of going out to consultation on the DRAFT Annual Business Plan and Budget (ABP&B). This information is updated regularly and therefore these figures may be subject to confirmation at the time of actual adoption of the ABP&B.

	2024-25	% of total rateable properties	2023-24	2024-25	Change	
Minimum Rate	722	12.6%	\$1,021	\$1,100	(r)	\$79

Adopted valuation method

Capital Value/Site Value/Annual Value

Council has the option of adopting one of three valuation methodologies to assess the properties in its area for rating purposes:

Capital Value – the value of the land and all improvements on the land;

Site Value – the value of the land and any improvements which predominantly affect the amenity of use of the land, such as drainage works, but excluding the value of buildings and other improvements (Note: Site Value will cease to be an option from 1 Sept 2023); or

Annual Value – a valuation of the rental potential of the property.

The District Council of Yankalilla has adopted Capital Value for the purpose of rating.

Notes

(p) Average per rateable property calculated as General Rates for category, including any fixed charge or minimum rate (if applicable) but excluding any separate rates, divided by number of rateable properties within that category in the relevant financial year.

(r) Where two or more adjoining properties have the same owner and are occupied by the same occupier, only one minimum rate is payable by the ratepayer.

LONG-TERM FINANCIAL PLAN & SUSTAINABILITY

Council's draft Long-Term Financial Plan has been updated in conjunction with the draft Annual Business Plan & Budget. There are several assumptions used in the preparation of the plan to model the financial position of Council over the next ten years. A number of these are listed below.

As we work on preparing a new Strategic Plan Four Year Focus, we're continuing to keep our focus on the key priorities identified. We'll be concentrating on setting our district up for long-term financial sustainability by delivering essential services, reducing debt and maintaining and upgrading infrastructure.

We understand that our community's needs are at the heart of our decisions and we're committed to working with you to meet them. Over the next six months, we'll be closely engaging with the community to work out what Council's work plan looks like to deliver services and activities that reflect your priorities. This is the goal of the second phase of working towards achieving our Vision 2030.

LONG-TERM FINANCIAL PLAN & SUSTAINABILITY

continued

Inflation

The financial model assumes the Reserve Bank of Australia’s (RBA) forecast inflation measure of Consumer Price Index (CPI) at the end of June each year until 2026.

A standard increase of 2.5% has been applied beyond 2026, and will be updated annually as the RBA publishes more forecasts..

Financial Sustainability

Achieving and maintaining an average of a balanced budget is fundamental to financial sustainability. The Long-Term Financial Plan forecasts that Council will be balanced in 2024-25 and move into and overall surplus in 2025-26 and 2026-26.

Asset Management Planning

A core responsibility of Council is the management, operation and maintenance of a diverse asset portfolio that provides services and facilities for our community. A suite of Asset Management Plans were adopted by Council that cover its major asset suite.

Two of these plans underwent review in 2023-24 and two more go under review in 2024-25 to ensure they capture recent changes to the asset portfolio.

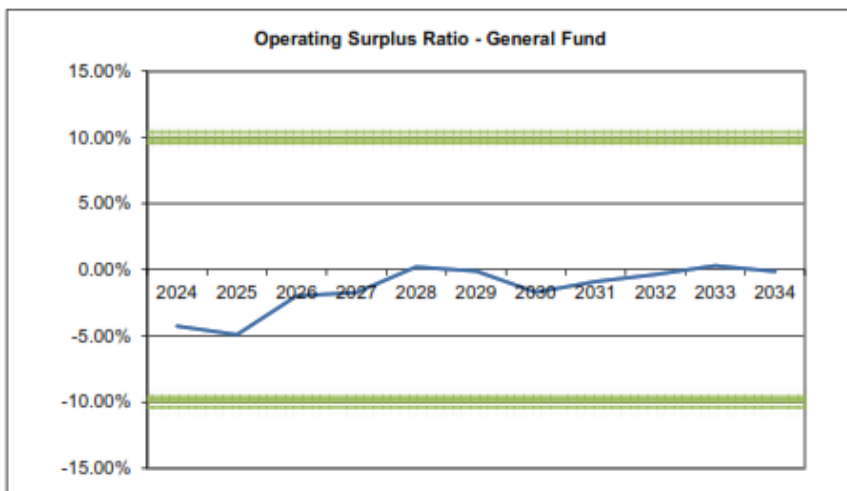

The Asset Management Plans inform the Long-Term Financial Plan and Council’s asset replacement expenditure proposed in this Long-Term Financial Plan.

LONG-TERM FINANCIAL PLAN & SUSTAINABILITY

Key financial performance indicators over the life of the Long-term Financial Plan

From 2025-26 onwards, all key indicators will be within the target range for the remainder of the plan.

Minimum Amber Minimum Green

Maximum Green Maximum Amber

ESSENTIAL SERVICES COMMISSION (ESCOSA)

Response to the advice

In 2022, District Council of Yankalilla was part of the first group of Councils in the State to be reviewed by the Essential Services Commission (ESCOSA). In February 2023, ESCOSA provided advice on the financial position of the Council, which outlined some challenges to achieving and maintaining financial sustainability. Council continues to take this advice seriously and is actively working to address the issues raised. We aim to ensure that our operations remain sustainable while continuing to provide the necessary and highly valued services for our community. In moving forward, we continue to stand by the following statements of commitment initially provided in 2023-24.

To further assure you that the District Council of Yankalilla remains dedicated to serving our community and maintaining its long-term sustainability, we provide an annual update on Council's progress to address the eleven recommendations made by ESCOSA in the tables on the pages that follow.

Prudent Budgeting

We recognise the importance of budgeting prudently to ensure financial stability. We are reviewing our budgeting practices to align with ESCOSA's recommendations. In preparing the 2024-25 Annual Budget and the Long-Term Financial Plan, we focused on long-term sustainability.

Efficient Cost Management

To manage our costs effectively, we are implementing strategies to improve operational efficiency. This includes identifying areas where we can streamline processes and reduce expenses without compromising service quality. Our goal is to carefully manage costs and mitigate any potential affordability risks for the community.

Asset Renewal Program

We have planned a full capital renewal review for our existing assets to align our asset renewal to our financial capabilities. This program aims to identify priority assets and address maintenance and renewal needs, ensuring that our necessary infrastructure remains in good condition and continues to meet sustainable service levels. By proactively identifying and managing our asset base, we can avoid costly emergency repairs and better allocate resources.

Responsible Asset Planning

We understand the importance of planning for the future. We will assess our asset needs carefully, considering community requirements, to ensure that our resources are allocated effectively. This will allow us to plan ahead, make informed decisions and avoid unnecessary financial strain.

Constrained Rate Increases

We share ESCOAS's concern about rate increases and are committed to constraining them as much as possible. The economic environment continues to make this difficult with continued rising cost of delivering projects and services. We continue to explore alternative revenue sources, including seeking an advantageous management model for the BIG4 Normanville Jetty Holiday Park.

Response to ESCOSA's advice

ESCOSA Recommendation	District Council of Yankalilla progress
<p>Budgeting considerations</p>	
<p>1. Provide greater clarity in its Long-Term Financial Plan (and as necessary, its Annual Business Plan & Budget) concerning the annual inflation assumptions feeding into its projected revenue (including rates) and expenses as distinct from 'real' impacts.</p>	<p>The 'Long-Term Financial Plan & Sustainability' section in the 2023-24 Annual Business Plan & Budget identifies that the financial model assumes the Reserve Bank of Australia's (RBA) inflation measure of Consumer Price Index (CPI) at the end of June each year. A table of inflationary assumptions is also supplied.</p>
<p>2. Continue to review its inflation assumptions in its forward projections from 2023-24, given the potential for higher short-term inflation outcomes, followed by a return to long-term averages.</p>	<p>A full review of inflation assumptions was conducted in preparation of the 2023-24 Annual Budget and the 2023-33 Long-Term Financial Plan. In 2023-24 the RBA's June forecasts were used for the 3 years 2023-2026.</p> <p>The 2024-25 Annual Budget preparation provided a further opportunity to review inflation assumptions and adjust where necessary. In 2024-25 the RBA's June forecasts were used for the 3 years 2024-2027.</p>
<p>Providing evidence of ongoing cost efficiencies</p>	
<p>3. Focus on constraining cost growth where possible, particularly related to 'employee' and 'materials, contracts and other' expenses.</p>	<p>In 2023-24 the budgeted Materials, Contracts and Other expense line was constrained. In 2024-25 was further constrained to allow for the increase in essential services (insurance, waste, electricity, water etc) without increasing total Materials, Contracts and Other expenses</p>
<p>4. Report its actual and projected cost savings in its annual budget, to provide evidence of constraining cost growth and achieving efficiency across its operations and service delivery.</p>	<p>This recommendation is being considered for future Annual Budget processes.</p>

ESCOSA Recommendation	District Council of Yankalilla progress
Continuing to manage borrowing risk	
<p>5. Improve the transparency and consistency of borrowing assumptions in its long-term financial plan, including interest rates and loan terms.</p>	<p>Council reports the interest rates and loan terms to the Audit & Risk Committee and Council regularly via the Finance Report.</p> <p>The addition of the interest rate assumptions has been included in the introduction to the Long-Term Financial Plan.</p>
Refinements to asset management planning	
<p>6. Review the assumptions underpinning its asset management plans to ensure those plans incorporate a more accurate picture of required asset renewal expenditure and better align with the allocations in its Long-Term Financial Plan as necessary, including the estimates of asset lives and valuations feeding into the forecast rates of asset consumption and depreciation expenses</p>	<p>Council sought Community Consultation on the AMPs for Stormwater and Transport in June 2023. The final plans and feedback from the community were presented to Council in July 2023 with a recommendation to adopt. Both AMPs were updated and adopted in August 2023.</p> <p>The Buildings Asset Management Plan (AMP) was adopted in July 2018. and the Recreation Asset Management Plan (AMP) was adopted in August 2019. These plans have a life of four years and are both due for revision and updating within two years of each Council Election. These AMP are being reviewed at the end of 2023-24.</p>
<p>7. Finalise and adopt its Asset Management Plans across different asset categories and make them accessible from its website.</p>	<p>Asset Management Plans are published on Council's website at https://www.yankalilla.sa.gov.au/council/documents-and-meetings/asset-management-plans</p>

ESCOSA Recommendation	District Council of Yankalilla progress
Reporting and containing rate levels	
<p>8. Report in its annual business plan the estimated average annual change for all categories of general rates, together with the quantum of annual revenue it expects to collect from the different categories of rates (with minimum rate revenue reported separately), providing greater clarity and transparency to its ratepayers.</p>	<p>In 2023-24 Council implemented the use of the ‘Statement of expected Rate Revenue’ template from the Local Government Association (LGA) and the LGA Finance Managers Group (FMG) to report the:</p> <ul style="list-style-type: none"> • estimated average annual charge for all categories of general rates • quantum of annual revenue expected to collect from the different categories of rates • number of properties to which the minimum rate will apply.
<p>9. Review the rateable property growth forecasts in its budget projections each year to ensure that they remain current and do not create a need for additional rate increases to generate the same level of projected revenue.</p>	<p>Rateable property growth is reviewed every year on receipt of capital valuations from the Valuer-General.</p>
<p>10. Review and consider reducing minimum rate and average rate increases, in consultation with its community, particularly on rate categories which have a lower capacity to pay.</p>	<p>Council will consider a full rate review in the years ahead to ensure its approach to rating aligns with fairness and best practice principles.</p>
<p>11. Review the rationale for the quantum of the maximum rate increase (or cap) it has imposed (currently at 15 percent) in its next annual business plan, with consideration of the community’s capacity to pay for higher increases up to this level.</p>	<p>The 15% maximum rate increase was introduced in 2022-23 and brought an end to the previous policy that included two elements, one for pensioners and those on Centrelink support and another for ratepayers who met specific qualifications. This policy remained in 2023-24 given that the change was so recently introduced.</p> <p>Council considered the rationale for maintaining a 15% rebate cap and increased it to 20% in preparation of its 2024-25 Annual Business Plan.</p>

APPENDIX 1 BUDGET FINANCIAL STATEMENTS

The following financial statements compare the forecast for the current 2023-24 financial year to that proposed for 2024-25.

APPENDIX 2

FEES & CHARGES

FEES & CHARGES

2024-25

The Local Government Act 1999 empowers a Council to impose fees and charges for various services it provides, either as a part of its statutory functions or on request.

Council's fees and charges are subject to public consultation and resolution by Council.

Section 188(6) of the Act requires Council to keep a list of fees and charges imposed under this section on public display (during ordinary office hours) at the principal office of the Council. This document is the record of fees and charges for public display for the District Council of Yankalilla.

As per the Goods and Services Tax Act 1999, GST will be charged on all fees and charges, except those given exemption under the Act. The fees and charges will identify all those charges that attract a Goods and Services Tax. All prices will be inclusive of a 10% GST where applicable. Bond monies will not attract GST unless monies are not refunded due to breaches in relation to conditions of hire.

Other fees and charges imposed by Council are determined by legislation and is not responsibility of Council. These fees and charges are detailed on our website.

COMMUNITY SERVICES AND FACILITIES

LIBRARY

NOTES:

- Replacement fees are applied to any lost or damaged item. The fee detailed is a minimum fee, costs incurred are applied to higher cost books.
- For photocopying and printing services, please refer to the section entitled 'Printing and Photocopying Services'.

1 The Commission's key advice findings for the District Council of Yankalilla

The Essential Services Commission (**Commission**) finds the District Council of Yankalilla's (**Council**) current financial position at risk of being unsustainable, with continued operating deficits resulting from its revenue base, including rates revenue, being stretched to meet the service level requirements of its infrastructure base. The Council has forecast a period of service consolidation, following its recent major capital projects for the community, and has planned an expanded capital renewal program for its existing assets. With already high rates, its costs will need to be managed carefully to limit further affordability risk for the community.

Acknowledging this outlook, the Commission considers that it would be appropriate for the Council to undertake the following steps to ensure that it budgets prudently, manages its cost base efficiently, renews its asset base to meet sustainable service levels, plans its asset needs appropriately and constrains the extent of further rate increases.

Budgeting considerations

1. **Provide** greater clarity in its long-term financial plan (and as necessary, its annual business plan and budget) concerning the annual inflation assumptions feeding into its projected revenue (including rates) and expenses as distinct from 'real' impacts.
2. **Continue** to review its inflation assumptions in its forward projections from 2023-24, given the potential for higher short-term inflation outcomes, followed by a return to long-term averages.

Providing evidence of ongoing cost efficiencies

3. **Focus** on constraining cost growth where possible, particularly related to 'employee' and 'materials, contracts and other' expenses.
4. **Report** its actual and projected cost savings in its annual budget, to provide evidence of constraining cost growth and achieving efficiency across its operations and service delivery.

Continuing to manage borrowing risk

5. **Improve** the transparency and consistency of borrowing assumptions in its long-term financial plan, including interest rates and loan terms.

Refinements to asset management planning

6. **Review** the assumptions underpinning its asset management plans to ensure those plans incorporate a more accurate picture of required asset renewal expenditure and better align with the allocations in its long-term financial plan as necessary, including the estimates of asset lives and valuations feeding into the forecast rates of asset consumption and depreciation expenses.
7. **Finalise** and adopt its asset management plans across different asset categories and make them accessible from its website.

Reporting and containing rate levels

8. **Report** in its annual business plan the estimated average annual change for all categories of general rates, together with the quantum of annual revenue it expects to collect from the different categories of rates (with minimum rate revenue reported separately), providing greater clarity and transparency to its ratepayers.
9. **Review** the rateable property growth forecasts in its budget projections each year to ensure that they remain current and do not create a need for additional rate increases to generate the same level of projected revenue.
10. **Review** and **consider** reducing minimum rate and average rate increases, in consultation with its community, particularly on rate categories which have a lower capacity to pay.
11. **Review** the rationale for the quantum of the maximum rate increase (or cap) it has imposed (currently at 15 percent) in its next annual business plan, with consideration of the community's capacity to pay for higher increases up to this level.

2 About the advice

The Essential Services Commission (**Commission**), South Australia's independent economic regulator and advisory body, has been given a role by the State Government to provide advice on material changes proposed by local councils in relation to elements of their strategic management plans (**SMPs**) and on the proposed revenue sources, including rates, which underpin those plans.¹

One of the main purposes of the Local Government Advice Scheme (**advice or the scheme**) is to support councils to make 'financially sustainable' decisions relating to their annual business plans and budgets in the context of their long-term financial plans (**LTFPs**) and infrastructure and asset management plans (**IAMPs**)² – both required as part of a council's SMP.³ Financial sustainability is considered to encompass intergenerational equity,⁴ as well as program (service level) and rates stability in this context.⁵ The other main purpose is for the Commission to consider ratepayer contributions in the context of revenue sources, outlined in the LTFP.⁶ In addition, the Commission has discretion to provide advice on any other aspect of a council's LTFP or IAMP it considers appropriate, having regard to the circumstances of that council.⁷

The first cycle of the scheme extends over four years from 2022-23 to 2025-26, and the Commission has selected 15 councils for advice in the first scheme year (2022-23), including the District Council of Yankalilla (**Council**).

This report provides the Local Government Advice for the District Council of Yankalilla in 2022-23.

The Council is obliged under the *Local Government Act 1999* (**LG Act**) to publish this advice and its response, if applicable, in its 2023-24 Annual Business Plan (including any draft Annual Business Plan) and subsequent plans until the next cycle of the scheme.⁸ It does not need to publish the attachment to the advice (these will be available with the advice on the Commission's website⁹), nor is it compelled under the LG Act to follow the advice. The Commission thanks the District Council of Yankalilla for providing relevant information to assist the Commission in preparing this advice.

2.1 Summary of advice

In general, the Commission finds the District Council of Yankalilla's current financial position at risk of being unsustainable, with continued operating deficits resulting from its revenue base, including rates revenue, being stretched to meet the service level requirements of its recently expanded infrastructure base.

Over the past two years, the Council has commenced major multi-year capital projects with partial grant funding (such as the Yankalilla library and carpark and implementation of the Normanville Foreshore Masterplan) but this has put further pressure on its operating budget. Looking ahead, the

¹ Amendments to the *Local Government Act 1999* (s122(1c) to (1k) and (9)) specify the responsibilities for the Commission and local councils for the Local Government Scheme Advice. The Commission must provide advice to each council in accordance with the matters outlined in s122(1e), (1f) and (1g).

² Commonly referred to as asset management plans.

³ The objectives of the advice with reference to a council's LTFP and IAMPs are presented under LG Act, s122(1g). LG Act s122(1) specifies the requirements of a council's SMP, including the LTFP and IAMPs.

⁴ 'Intergenerational equity' relates to fairly sharing services and the revenue generated to fund the services between current and future ratepayers.

⁵ Commission, *Framework and Approach – Final Report*, August 2022, pp. 2-3, available at www.escosa.sa.gov.au/advice/advice-to-local-government.

⁶ LG Act s122(1f) (a) and (1g) (a)(ii).

⁷ LG Act s122(1f) (b) and (1g) (b).

⁸ LG Act s122(1h).

⁹ The Commission must publish its advice under LG Act s122(1i) (a).

Council has forecast a period of service consolidation, with relatively low spending on new and upgraded assets compared with earlier years.

It has also planned a significant asset renewal expenditure program to address its existing asset needs and the backlog of works that it has accumulated over the past 10 years. It has forecast a period of high property growth and further rate increases (above the rate of inflation for two more years after 2022-23), to generate the revenue growth it needs for sustainability.

In general, a focus on managing its growth-related assumptions and consulting with its community about rate contributions and service levels should help the Council to identify and act upon opportunities to reduce any associated affordability risk to the community.

Its projected improvement to its financial performance also relies on cost constraint and the Commission considers that it should also take steps to find genuine savings in its recurrent budget where possible.

In addition, the Council should review and update its asset management plans (**AMP**) as a priority to ensure that its proposed capital expenditure and depreciation expenses are sufficiently reflected by and supported through these plans.

The charts below of the District Council of Yankalilla’s past and projected operating surplus ratio, net financial liabilities ratio, asset renewal funding ratio and average rate revenue per property, together support these findings.

The ‘heat map’ diagram over the page summarises the Commission’s findings with reference to whether the Council has met the suggested Local Government Association (**LGA**) target ranges for the three main financial sustainability indicators¹⁰ and the level of cost control and affordability risk identified for the Council over time.

¹⁰ The suggested LGA target range for the ratios are discussed in more detail in the attachment.

Summary of the District Council of Yankalilla's financial sustainability performance and the Commission's risk assessment

Financial sustainability indicators:	Last 10 years from 2011-12 (Actual performance)	2021-22 estimate	Next 10 years from 2022-23 (Council forecasts)
Operating surplus ratio (target 0-10%)	Some surpluses but operating surpluses ratio average -0.9% to 2021-22 →		Surpluses forecast from 2025-26 →
Net financial liabilities ratio (target 0-100%)	Ratio met historically and in forecast period →		
Asset renewal funding ratio (target 90-110%)	Ratio below suggested target range →	Ratio above suggested target range →	Council to address backlog
Identified Risks:			
Cost control risk	Operating expenses per property average growth 2.5% p.a. to 2020-21 (CPI 1.7% p.a.) →	Increasing expenses including depreciation	Operating expense per property growth forecast to average 2.4% p.a. to 2031-32 (CPI 2.8%) →
Affordability risk	Average rate revenue per property increased by 2.5% p.a. (CPI 1.7% p.a.) →	High residential rates	Continued increases to high rate levels (projected rate revenue per property average growth 2.8% p.a. →)

- Ratio outside recommended LGA target range or higher risk
- Ratio close to recommended LGA target range or medium risk
- Ratio within recommended LGA target range or lower risk

2.2 Detailed advice findings

The next sections summarise the Commission's more detailed observations and advice findings regarding the District Council of Yankalilla's material changes to its 2022-23 plans (compared with the previous year's plans), its financial sustainability (in the context of its long-term operating performance, net financial liabilities, and asset renewals expenditure) and its current and projected rate levels.

In providing this advice, the Commission has followed the approach it previously explained in the Framework and Approach – Final Report (F&A). The attachment explores these matters further.¹¹

2.2.1 Advice on material plan amendments in 2022-23

The Commission has compared the District Council of Yankalilla's projections in its 2022-23 LTFP with those from its 2021-22 LTFP and focused on the aggregate of the nine overlapping years' statistics: 2022-23 to 2030-31 to ensure a comparable analysis of material amendments.

The Council's 2022-23 budget includes increases to both its projected income and expenditure items to 2030-31, compared with the 2021-22 forecasts,¹² as follows:

- ▶ An additional \$19.6 million or 12.8 percent in total operating income. Most of this increase is due to higher rates which increased by \$14.5 million or 12.2 percent on the 2021-22 estimates (for the period 2022-23 to 2030-31). User charges have also increased by \$3.2 million or 17.1 percent. The Council's annual business plan and budget states it is expecting an increase in income once the 23 new cabins are completed at the Jetty Caravan Park.¹³
- ▶ An additional \$21.8 million or 14.5 percent in total operating expenses (for example, for contracts or employees) and \$12.1 million or 31.6 percent in total capital expenditure. The higher capital expenditure estimates reflect a significant new allocation for previously unfunded building renewal works in the early years of the forecast period. Also, more than half of the Council's higher operating expenses are due to an increase of \$10.4 million or 30.4 percent in depreciations costs. This reflects the major multiyear capital projects that are included in the Normanville Foreshore Masterplan and the Yankalilla library and carpark. However, the Council has also informed the Commission that the depreciation figures will be revised in its 2023-24 long-term financial plan.¹⁴

Based on the Council's inflation assumptions,¹⁵ an increase in total revenue and expenditure estimates by around 8 percent over the nine years to 2030-31,¹⁶ compared with its 2021-22 estimates, would appear to reflect its adjusted inflation estimates. However, these calculations rely on the Council's assumed Consumer Price Index (CPI) inflation of 6 percent in 2022-23¹⁷ and 2 percent thereafter (and commensurate increases to wage inflation compared with its LTFP 2021-22), but it is not exactly clear the timing of the annual inflation estimates, or extent of wage inflation assumed by the Council.

Although the Council's annual business plan does discuss the inflation impact and estimates, the Commission notes that the LTFP component could provide better clarity about the specific CPI and wage-cost inflation assumptions, as a percentage increase each year, in its forward estimates. Further,

¹¹ The attachment will be available on the Commission's website with the Advice.

¹² The overlapping forecast period in both LTFPs (2021-22 to 2030-31 and 2022-23 to 2031-32).

¹³ District Council of Yankalilla, *2019-20 Annual Business Plan and Budget*, July 2022, p. 26, available at https://www.yankalilla.sa.gov.au/_data/assets/pdf_file/0031/447079/Council-Agenda-16-July-2019-1.pdf.

¹⁴ District Council of Yankalilla, *email advice to the Commission*, 8 February 2023.

¹⁵ The Council has increased its CPI growth forecast for 2022-23 from 1.2 percent annually over the period 2021-22 to 2030-31 to a range from 6 to 2 percent annually over the period 2022-23 to 2031-32.

¹⁶ The set of nine years forecast in both the 2021-22 and 2022-23 LTFP projections.

¹⁷ The Council did also assume a 4.7 percent increase for inflation to its rates in 2022-23 (but the Commission's estimates of the aggregate inflation impact focus on the upper limit).

while the Commission does not consider the Council's inflation assumptions to be unreasonable,¹⁸ in the current inflationary environment, uncertainty to the forecasts remains.

Notwithstanding the need for the District Council of Yankalilla to endeavour to find savings in real terms to reduce any inflationary impact on its community, the Commission considers that it would be appropriate for it to:

1. **Provide** greater clarity in its long-term financial plan (and as necessary, its annual business plan and budget) concerning the annual inflation assumptions feeding into its projected revenue (including rates) and expenses as distinct from 'real' impacts.
2. **Continue** to review its inflation assumptions in its forward projections from 2023-24, given the potential for higher short-term inflation outcomes, followed by a return to long-term averages.

2.2.2 Advice on financial sustainability

Operating performance

The District Council of Yankalilla had operating deficits¹⁹ in six of the years between 2011-12 and 2020-21, with an average operating surplus ratio²⁰ performance of negative 1.4 percent over these years. This is below the suggested LGA target range for the ratio.

In the same period, the Council's operating income increased by an average annual rate of 2.7 percent, compared with average CPI growth of 1.7 percent.^{21 22} The increase in income was due to an average increase in rates revenue of 3.0 percent per annum, and a 5.2 percent increase in user charges revenue. At the same time, property growth averaged 0.4 percent annually in the Yankalilla District.

The Commission notes that the Council's rate revenue was impacted by the transfer of the district's community wastewater system (sewerage) and Wirrina Water Service to SA Water which occurred on 1 July 2019.

The Commission notes that the Council's rate revenue decreased to \$11.3 million in 2019-20 (from \$12.7 million in 2018-19) resulting in the average rate income per rateable property decreasing to \$2,012 per property in 2019-20 (down from \$2,288 per property in 2018-19) (see top right chart in section 2.1). The Council's operating expenses also decreased to \$14.4 million in 2019-20 (from

¹⁸ The Reserve Bank of Australia (RBA) revised its inflation forecasts for CPI to increase by 6.7 percent in the year to the June 2023 quarter, by 3.6 percent in the year to the June 2024 quarter and by 3.0 percent in the year to the June 2025 quarter (noting that these are 'through-the-year' rather than 'average annual' forecasts). Beyond June 2025 quarter, the RBA has not published inflation forecasts, but a return to the long-term annual average (of 2.5 percent based on the midpoint of the RBA's target range of 2 and 3 percent) is a reasonable assumption.

¹⁹ This means the Council's operating expenses (including depreciation) have exceeded operating income (including rates and other revenue sources but excluding capital grants, subsidies, and contributions).

²⁰ The operating surplus ratio is defined as: Operating Surplus (Deficit) ÷ Total Operating Income, where the balance includes depreciation expenses. A strong operating result for a council is a positive indicator of financial viability. The general target is to achieve, on average over time, an operating surplus ratio of between zero and 10 percent Local Government Association of South Australia, *Financial Sustainability Information Paper 9 - Financial Indicators Revised May 2019 (LGA SA Financial Indicators Paper)*, p. 6).

²¹ CPI (All groups). Average annual growth in the Local Government Price Index published by the South Australian Centre for Economic Studies was similar (at 1.9 percent). Available at <https://www.adelaide.edu.au/saces/economic-and-social-indicators/local-government-price-index>.

²² Based on the compound average annual growth rate formula (which is the adopted approach to calculating average annual growth rates throughout the Commission's advice).

\$15.6 million in 2018-19). At the time the Council stated that it would run a deficit for a period as it worked towards achieving a 'surplus budget in year five'.²³

The Council's growth in its operating expenses in the 10 years to 2020-21 was higher than its growth in operating income - averaging 3.0 percent per annum. This was driven by 'employee' expense growth (averaging 5.1 percent per annum, owing to more staff) and 'materials, contracts and other' expenses growth (averaging 4.0 percent per annum).²⁴

The Council has not forecast to generate an operating surplus again until 2025-26 (when the operating surplus ratio is estimated to be 0.9 percent). The continued deficits between 2022-23 and 2025-26 are largely due to higher 'depreciation' expense growth (averaging 9.5 percent per annum from 2021-22 to 2025-26).

The improved financial position over the medium-term results from its projected operating income growth (estimated to average 3.9 percent per annum) exceeding its projected operating expense growth (estimated to average 3.4 percent per annum). At the same time, the Council has forecast higher growth in property numbers (averaging 1.0 percent per annum) which is higher than previously achieved (0.4 percent from 2011-12 to 2020-21). This suggests that both its estimated cost and revenue growth per property is higher than its forecast annual average inflation growth (if it is assumed to be 2 percent from 2023-24), but not too dissimilar from RBA-based average forecast inflation growth (2.8 percent to 2031-32).²⁵

Based on its historical performance, it would be prudent for the Council to exercise cost constraint and generate tangible savings in its budgets to achieve the improvement to its financial sustainability that it has forecast. To this end, the Commission has found that it would be appropriate for the Council to:

3. **Focus** on constraining cost growth where possible, particularly related to 'employee' and 'materials, contracts and other' expenses.
4. **Report** its actual and projected cost savings in its annual budget, to provide evidence of constraining cost growth and achieving efficiency across its operations and service delivery.

Net financial liabilities

The Council's net financial liabilities ratio²⁶ has comfortably met the suggested LGA target range (between zero and 100 percent) over the past 10 years, with an average of 44 percent between 2011-12 and 2020-21.

The District Council of Yankalilla has estimated that its net financial liabilities ratio will continue to meet the suggested LGA target range in its 2022-23 forecasts but has projected a decrease in the ratio from 94 percent in 2022-23 to 52 percent by 2031-32.

Total borrowings are forecast to peak in 2023-24 at \$15.1 million, and then reduce to \$11.5 million in 2031-32. The increase in borrowings in the short term is due to the Council embarking on major multiyear capital projects. The Council's plan to reduce its peak borrowing levels appears to reflect a

²³ District Council of Yankalilla, *2019-20 Annual Business Plan and Budget*, p. 5.

²⁴ The Commission notes the impact of the increase in the solid waste levy on councils' waste management costs over this period.

²⁵ The forecast average annual growth in the CPI from 2022-23 to 2031-32 is estimated to be 2.8 percent based on (RBA) forecasts for the CPI (Australia wide) to June 2025 (and the Commission's calculations of average annual percentage growth) and the midpoint of the RBA's target range (2.5 percent) from 2025-26.

²⁶ The net financial liabilities ratio is defined as: Net financial liabilities ÷ Total operating income. This ratio measures the extent to which a council's total operating income covers, or otherwise, its net financial liabilities. The suggested LGA target range is between zero and 100 percent of total operating income, but possibly higher in some circumstances (LGA SA Financial Indicators Paper, pp. 7-8).

prudent approach to managing the extent of its net liabilities, consistent with the level that its operating income can reasonably service.

Given the accompanying risk that such borrowing entails, it might also be prudent for the Council to include more assumptions in its LTFP about the terms of the borrowing, including interest rates and loan terms. For this reason, the Commission considers it appropriate for the Council to:

5. **Improve** the transparency and consistency of borrowing assumptions in its long-term financial plan, including interest rates and loan terms.

Asset renewals expenditure

The District Council of Yankalilla has consistently prioritised expenditure on renewal and replacement assets, as opposed to new and upgraded assets. Its expenditure on new or upgraded assets averaged \$0.9 million per annum between 2011-12 and 2020-21, compared with \$2.2 million on the renewal of its assets base. Despite the priority of its spending, the amount on asset renewals has fallen short of the requirements the Council identified in its AMPs. For this reason, the Council's asset renewal funding ratio (IAMP-based²⁷) was well below the suggested LGA target range of 90 to 110 percent, averaging 67 percent between 2012-13 and 2020-21.

Looking ahead, the Council is forecasting significantly higher expenditure on the renewal of its asset base (an average of \$4.4 million per annum to 2031-32). As such, its asset renewal funding ratio is forecast to perform consistently above the suggested LGA target range for the 10-year period to 2031-32 (with the 10-year average of 127.3 percent), as it seeks to catch up on past renewal backlogs.

The depreciation-based asset renewal funding ratio²⁸ is projected to average 86 percent per annum to 2031-32, reflecting that the depreciation expenses are still estimated to be higher than the annual spend on renewing assets over this time. This is likely explained by the increased asset values associated with the redevelopment of the Yankalilla library, Normanville foreshore project and Jetty Caravan Park cabin installations. However, it could also be due to there being a misalignment between asset lives assumed in each case (with potentially longer lives being assumed in the LTFP than in the AMPs).

The Council's Stormwater AMP and Transport AMP were last updated in November 2016, while the Recreation AMP was last updated in December 2018 and the Buildings AMP was last updated in December 2017. The Council has stated that its AMPs are currently under development.²⁹ The Commission has observed that the Council's LTFP projections for capital expenditure are not aligned to these plans. Furthermore, since the Council's AMPs were last updated, the Council has commenced major multiyear capital projects which should also be reflected in these plans. The Commission notes that the Council will also embark on a community satisfaction survey in 2023, which could further

²⁷ The IAMP-based method is the current industry standard whereby asset renewal/replacement expenditure is divided by the recommended expenditure in the IAMP (or AMP). Ideally, this will show the extent to which a council's renewal or replacement expenditure matches the need for this expenditure, as recommended by the plan. The suggested LGA target range for the ratio is 90 to 110 percent (LGA SA Financial Indicators Paper, p. 9).

²⁸ The Council's asset renewal funding ratio by the depreciation-based method (where asset renewal/replacement expenditure is divided by depreciation expenses). This ratio shows the extent to which capital expenditure on the renewal and replacement of assets matches the estimated rate at which these assets are used or consumed.

²⁹ District Council of Yankalilla, *Ordinary Council Meeting Agenda – Item 14.11 Attachment Chief Executive Officer – Performance Review*, p. 18, available at https://www.yankalilla.sa.gov.au/_data/assets/pdf_file/0023/1271903/Ordinary-Council-Meeting-Agenda-17-January-2023.pdf.

inform the service priority areas and the further development of these plans.³⁰ The Commission considers that it would be appropriate for it to:

6. **Review** the assumptions underpinning its asset management plans to ensure those plans incorporate a more accurate picture of required asset renewal expenditure and better align with the allocations in its long-term financial plan as necessary, including the estimates of asset lives and valuations feeding into the forecast rates of asset consumption and depreciation expenses.
7. **Finalise** and adopt its asset management plans across different asset categories and make them accessible from its website.

2.2.3 Advice on current and projected rate levels

The District Council of Yankalilla's average rate revenue per property increased by an average of 2.5 percent or \$45 per annum over the past 10 years.³¹ This compares with CPI growth of an average of 1.7 percent per annum over this period and encompasses average annual growth of 0.4 percent in rateable property numbers. As a result of these increases, its average rates per property are relatively high, including residential and rural rates.³²

The Council has budgeted for an average rate increase of 5.5 percent for its existing ratepayers in 2022-23,³³ which was higher than it had anticipated charging for this year in its 2021-22 LTFP projections (1.8 percent) due to the impact of higher inflation.

It appears that the Council has applied the average increase of 5.5 percent across its land use rating categories, but the rates revenue information provided in its annual business plan and budget does not show the average rate impact for each land use category (distinct from the minimum rate impact). The *Local Government (Financial Management) Regulations 2011 (Regulations)* requires that, at a minimum, the annual business plan provides a statement on the average change in the expected rates for each land use category.³⁴ The Commission considers that it would be appropriate for the District Council of Yankalilla to:

8. **Report** in its annual business plan the estimated average annual change for all categories of general rates, together with the quantum of annual revenue it expects to collect from the different categories of rates (with minimum rate revenue reported separately), providing greater clarity and transparency to its ratepayers.

To 2031-32, the average rate across all categories is forecast to increase by 2.8 percent per annum, from \$2,163 to \$2,785, a cumulative increase of \$622 per property.³⁵ This rate of growth is higher than

³⁰ District Council of Yankalilla, District Council of Yankalilla Strategic Plan, 2030 Vision, p. 18, available at https://www.yankalilla.sa.gov.au/_data/assets/pdf_file/0020/804314/Strategic-Plan-2030-Vision.pdf.

³¹ From 2011-12 to 2020-21.

³² Refer to the Councils in Focus website available at https://councilsinfocus.sa.gov.au/councils/district_council_of_yankalilla. The Commission is not relying on the rates comparisons for its advice; it is one indicator, among many, which has informed its advice on the appropriateness of the rate levels.

³³ District Council of Yankalilla, *2022-23 Annual Business Plan and Budget*, July 2022, p. 5, available at https://www.yankalilla.sa.gov.au/_data/assets/pdf_file/0024/1187070/Annual-Business-Plan-and-Budget-2022-23.pdf.

³⁴ Under Regulations s6(ec).

³⁵ This includes rates growth of 1 percent expected each year.

the Council's forecast inflation,³⁶ but aligned to the RBA-based forecast average inflation (2.8 percent).³⁷

The District Council of Yankalilla's rates revenue forecast also factors in average annual growth of 1.0 percent in property numbers.³⁸ This is lower than the rate of property growth from 2011-12 to 2020-21 (averaging 0.4 percent annually). Should lower growth eventuate, this might result in the Council increasing rate levels by more than it had forecast to generate the same amount of revenue. Therefore, it would be appropriate for it to:

9. **Review** the rateable property growth forecasts in its budget projections each year to ensure that they remain current and do not create a need for additional rate increases to generate the same level of projected revenue.

In considering the affordability risk for the proposed rate increases, the Commission acknowledges the assessment of the economic resources available to the community as indicated by the area's marginally high economic resources ranking.³⁹

However, existing rates (including residential and rural rates) are already relatively high and the District Council of Yankalilla's consultation on its annual business plan, which incorporated the proposed rate increases for 2022-23, did receive some community concern on the proposed increases.⁴⁰ It also received criticism about the proposed higher 'rate cap',⁴¹ which it adjusted to 15 percent from 10 percent in 2021-22 (but not to 20 percent as it originally proposed in its draft annual business plan for 2022-23).⁴²

With current economic conditions affecting many communities' capacity to pay for higher rates, including the Yankalilla District's, the Commission considers that it would be appropriate for the Council to:

10. **Review** and **consider** reducing minimum rate and average rate increases, in consultation with its community, particularly on rate categories which have a lower capacity to pay.
11. **Review** the rationale for the quantum of the maximum rate increase (or cap) it has imposed (currently at 15 percent) in its next annual business plan, with consideration of the community's capacity to pay for higher increases up to this level.

³⁶ The Council has increased its CPI growth forecast for 2022-23 from an average of 1.2 percent annually between 2021-22 and 2030-31 to a rate of 6 percent and then 2 percent to 2031-32.

³⁷ See footnote 25.

³⁸ Based on the Council's completed financial template submitted to the Commission.

³⁹ The District Council of Yankalilla area is ranked 44 among 71 South Australian 'local government areas' (including Anangu Pitjantjatjara and Maralinga Tjarutja Aboriginal community areas and 'unincorporated SA') on the Australian Bureau of Statistics Socio-Economic Indexes for Areas Index of Economic Resources (2016), where a lower ranking (eg, 1) denotes relatively lower access to economic resources in general, compared with other areas, available at <https://www.abs.gov.au/ausstats/subscriber.nsf/log?openagent&2033055001%20-%20lga%20indexes.xls&2033.0.55.001&Data%20Cubes&5604C75C214CD3D0CA25825D000F91AE&0&2016&207.03.2018&Latest>.

⁴⁰ From the 67 participants there were 8 comments on rates with 7 of those comments supporting no increase.

⁴¹ Council will introduce a new policy to apply a cap on the rates for any property where the rating category is unchanged in the prior year, so general rates cannot increase by more than 15 percent.

⁴² District Council of Yankalilla, *Special Council Meeting Agenda -12.2 July 2022, Item 5.1.2 Attachment B Annual Business Plan Community Engagement Report*, p. 93, available at [Special-Council-Meeting-Agenda-12-July-2022.pdf \(yankalilla.sa.gov.au\)](https://www.yankalilla.sa.gov.au/Special-Council-Meeting-Agenda-12-July-2022.pdf).

From the 67 participants, there were 8 comments on rate capping with 4 of those submissions supporting the proposed 20 percent rate capping and 4 submissions that indicated the 20 percent was too high.

2.3 The Commission's next advice and focus areas

In the next cycle of the scheme, the Commission will review and report upon the District Council of Yankalilla's:

- ▶ ongoing performance against its LTFP estimates
- ▶ review of its LTFP assumptions, including for inflation, borrowings and growth
- ▶ demonstration of cost constraint and similarly, its achievement of cost savings and efficiencies (including operational savings), and its reporting of these achievements
- ▶ progress in finalising its AMPs and actions to address any misalignment between the capital expenditure and depreciation estimates in its LTFP and various AMPs, as appropriate, and
- ▶ reporting of average rates by land use category and how it has sought to address the affordability risks identified.
